Dear Nursing Student;

Welcome to the College of Nursing! We are pleased that you have chosen the College of Nursing to fulfill your initial nursing education goals. We know that your nursing education will be filled with challenges, opportunities, and accomplishments. Nursing is a profession with virtually no boundaries. The mission of the College of Nursing is to provide a quality and innovative education to meet the diverse health needs of our society. As a student, you will fulfill this mission through your theoretical and clinical experiences. We prepare you to competently and effectively assume the role of an entry level nurse in a variety of health care environments. Administrators, faculty, and staff will assist you in many ways to help you achieve your goals.

This handbook will provide you with the policies and procedures of the College of Nursing. It will answer many questions you may have about expectations, resources, and opportunities. This handbook is not intended to state contractual terms and does not constitute a contract between the student and the College of Nursing. Its purpose is to assist you in understanding the policies, procedures, and general information specific to your nursing program within the College of Nursing. Students affected by any changes to this handbook or changes in procedures will be notified in writing.

On behalf of the administration, faculty and staff, best wishes on your academic success in the nursing curriculum. Please feel free to contact me or any member of the staff, faculty, or administration to assist you.

Sincerely,

Mable H. Smith, BSN, MN, JD, PHD
Nursing Administration

Accreditation

Roseman University of Health Sciences is accredited by the Northwest Commission on Colleges and Universities, 8060 165th Avenue N.E. Suite 100, Redmond, WA 98052, website www.nwccu.org.

The College of Nursing is accredited by the Accreditation Commission for Education in Nursing (ACEN), (formerly the National League for Nursing Accrediting Commission-NLNAC), 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326; Website www.nlnac.org.

Licensure

Roseman University of Health Sciences is licensed to operate a Doctor of Pharmacy, a Master in Business Administration, postdoctoral training in Advanced Education in Orthodontics and Dentofacial Orthopedics, and a Bachelor of Science in Nursing program in the state of Nevada by the Nevada Commission on Postsecondary Education, 8778 South Maryland Parkway, Suite 115, Las Vegas NV 89123; telephone: 702-486-7330; fax 702-486-7340; website www.cpe.state.nv.us.

Approvals

The College of Nursing has full approval from the Nevada State Board of Nursing, 2500 West Sahara Ave., Suite #207, Las Vegas NV 89102; telephone: 702-486-5800 or 888-590-6726; fax: 702-486-5803; website www.nursingboard.state.nv.us.

Accommodations

Refer to the Roseman University of Health Sciences Student Catalog.
Non-discrimination Policy
Roseman University of Health Sciences (Roseman) is an equal opportunity educational institution in all of its activities. Roseman University of Health Sciences, in compliance with Titles VI and VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Sections 503 and 403 of the Rehabilitation Act of 1973, and sections 102 and 302 of the Americans with Disabilities Act of 1990, does not discriminate on the basis of race, color, national origin, religion, handicap or sexual orientation in any of its policies, procedures, or practices. In compliance with the Age Discrimination in Employment Act of 1967, and Section 402 of the Vietnam Era, Veterans Readjustment Act of 1974, Roseman University of Health Sciences does not discriminate on the basis of age, ethnic origin, marital status, sexual orientation, or because an individual is a disabled veteran or veteran of the Vietnam Era, or because of a medical condition in any of its policies, procedures and practices. Within the limits of the law, Roseman University of Health Sciences does not discriminate on the basis of citizenship. This non-discrimination policy covers admission, access, and service in the University programs and activities, and application for and treatment in University employment.

Facilities, Equipment and Available Space
Roseman University of Health Sciences is located in a 100,000-square-foot building at 11 Sunset Way, Henderson, Nevada 89014.

This facility is highly functional with state of the art classrooms and labs which are equipped with the latest technology, a library, and student services areas to provide an optimum learning environment.

The College of Nursing, Accelerated BSN program is located at 4 Sunset Way, Building E on the 2nd floor. This site houses a computer laboratory, classroom, skills and simulation laboratory, faculty and support personnel.

Account for Student Indemnification
The State of Nevada has a bond program to reimburse defrauded students. NRS 394.553

The Commission on Postsecondary Education maintains a tuition indemnification fund that may be used to refund students in the event of a school’s closure. Please contact: Nevada Commission on Postsecondary Education; 8778 South Maryland Parkway, Suite 115, Las Vegas, NV 89123; Telephone: (702) 486-7330; Fax (708) 486-7340 for information concerning the fund.

Latex Allergy Policy
While Roseman University cannot guarantee a latex-free environment, it will:

- Encourage all units to work toward a latex-safe environment.
- Order latex-free products for all laboratories, when possible.
- Use only latex-free and powder-free gloves in all laboratories.
- Educate students and faculty with latex sensitivities to select latex-free gloves during clinical experiences.
- Discourage latex balloons on campus.
• Provide students, faculty, and staff with education on latex allergies through this written policy. A latex allergy will not disqualify a prospective student from admission into any of Roseman’s programs or prohibit a current student from continuing in a program. Please note, however that Roseman University cannot guarantee a latex-free academic or clinical environment in any of its facilities or associated clinical sites.

*(For the complete Latex Allergy Policy, please see the University Catalog)*

**Student Intercampus Transfer Policy**

A student may request to transfer from the South Jordan Campus to the Henderson Campus or from the Henderson Campus to the South Jordan Campus. The student’s request will be considered on a first come, first serve basis, determined by the availability of clinical space. The transfer request may be for academic or personal reasons. The student will be permitted only one permanent or temporary transfer between campuses.

The student must be in good academic and/or financial standing with the College of Nursing and with the University to be considered eligible for a transfer. Any academic concerns or disciplinary issues and/or grievances must be resolved prior to requesting the transfer.

The student may not transfer in the middle of a didactic or clinical Block. A student who withdraws in the middle of a didactic or clinical Block and then requests a transfer to the alternate campus will be required to retake the entire Block.

The student, who takes Senior Seminar and is unsuccessful in completing the ATI Comprehensive Predictor, after two attempts, may be provided a temporary transfer to the other campus to repeat Senior Seminar the next time it is offered on the Curriculum Calendar. The student granted a temporary transfer to complete Senior Seminar must take the NCLEX-RN under the program code of the College of Nursing where he/she completed all previous Blocks. The student is responsible for any transfer related costs.

**Transfer Process:**

The student must submit a written request to the dean/designee and complete the required transfer paperwork at least four weeks prior to the date the Block begins unless an exception is granted by the dean/designee. Verification of the Block start dates will be confirmed by the dean/desigenee.

**South Jordan to Henderson** The student from the South Jordan Campus will submit the transfer paperwork to the associate dean on the Henderson Campus. The Recruitment, Admissions & Enrollment Coordinator in Henderson will process the required paperwork and notify all appropriate parties.

**Henderson to South Jordan**

The student from the Henderson Campus will submit the transfer paperwork to the dean of the South Jordan Campus. The Recruitment, Admissions & Enrollment Specialist in South Jordan will process the required paperwork and notify all appropriate parties.

Revised: 11.27.12
Financial Responsibilities

Students must fulfill their financial responsibilities to the University to remain enrolled in the program. Students who have not satisfied the appropriate financial aid requirements and/or who have not paid their tuition and fees will not be allowed to progress through the curriculum. Students who have not met their financial responsibilities to the University will be subject to disenrollment. A clearance from the Bursar’s office is required to re-enroll.

Students who are taking a Block must make payment by 4:00 pm the day before an assessment to be eligible to take the assessment. Attempts will be made to prevent an ineligible student from starting an assessment. However, the Dean will not grant credit for an assessment completed by a student who was not eligible to sit for the assessment.

Students who are prohibited from taking an assessment or who have their assessment scores excluded because of failure to make appropriate payment will be required to retake the Block during the designated remediation period unless payment is received prior to the scheduled reassessment. If a student is prohibited from taking an assessment because of or due to failure to meet financial obligations to Roseman, it will be considered an unexcused absence and the student must retake the assessment during the designated remediation period. If a student has completed the assessment, the results will be invalidated.

Students who are in a clinical Block will not be allowed to attend or complete the clinical rotation. If a student is prohibited from attending a clinical rotation due to failure to meet financial obligations to Roseman, it will be considered an unexcused absence. The student must make-up time missed from the clinical rotation during the designated remediation period, if any. Clinical make up time is based on availability and is not guaranteed.

Deferred Policy

Admission to the College of Nursing Bachelor of Science in Nursing (BSN) Program may not be deferred at any time. In the event a student is granted admission to the College of Nursing BSN and, due to extenuating circumstances is unable to start the program during the term of admission, the application of the student will be rolled to the following term. Students may not rollover their application any further than the next term. Admission to a future term when applications are rolled over is not guaranteed under any circumstances. If the student is unable to resolve his/her situation to begin the next term, a new application and application fee must be submitted to the future term in which he/she chooses to apply.

If a student has submitted a seating deposit for the program and is unable to attend and wishes to rollover the application, the seating deposit minus $100 will be refunded and the application will be rolled in the following term’s application pool for review. When applications are rolled over, admission into a new cohort is not guaranteed under any circumstances.

The rollover of applications is at the discretion of the College of Nursing. Students are responsible for contacting the College of Nursing to discuss the application rollover option in the event they have extenuating circumstances that prevent their matriculation into the accepted cohort.
A student who is admitted to the nursing program, contingent on completing the admission requirements and does not meet these contingencies cannot start the program. The student’s application will not rollover and the student must reapply by submitting a new application and application fee.

College of Nursing Mission, Purpose, and Goals

Mission
The mission of the College of Nursing is to provide a quality, innovative undergraduate nursing education designed to meet the diverse healthcare needs of individuals, families, communities, and societies.

Fundamental to this mission is the faculty’s commitment to excellence in education, scholarship, and public service. To support Roseman University of Health Sciences’ commitment to academic freedom, the College of Nursing endeavors to provide an educational environment that values, respects, and promotes academic freedom for faculty and students.

Purpose
The purpose of the nursing program is to provide a quality multifaceted nursing education that enables its graduates to achieve their optimal intellectual and professional development.

The College of Nursing advocates life-long learning, clinical excellence in various healthcare environments, and provision of competent and caring health services to diverse populations.

In addition, the College of Nursing fosters the core values of excellence, competence, integrity and leadership, which provide the framework for students in their professional practice.

Goals
Guided by the core values, the goals of the College of Nursing are to:

- Present a curriculum that provides students with knowledge, skills, and competency to perform the role of a professional nurse in a culturally diverse population and variety of environments.
- Provide an environment that promotes intellectual stimulation and facilitates positive faculty/student relationships.
- Promote the health of communities through educational partnerships and collaborations, faculty service and scholarship, and preparation of graduates who can effectively and professionally respond to societal demands.
- Uphold the integrity of the nursing profession through principled actions and ethical decision making.
- Ensure accountability of our students and faculty.

College of Nursing Philosophy
The College of Nursing is positioned within an academic environment that respects the individual, fosters diversity, promotes scholarship, cultivates life-long learning, and makes excellence an imperative. The faculty of the College of Nursing accepts the mission of Roseman University of Health Sciences and supports the concept of an educational system that instills in our students a passion for learning through dynamic curricula. Learning is facilitated by progression of concepts and principles from simple to complex.
The College of Nursing supports the University’s goal of creating critical thinkers who become life-long learners and who can make informed decisions and valuable contributions to society and the world. The philosophy of the College of Nursing expresses these beliefs in the metaparadigm concepts of nursing, health, person, environment, and caring.

**Nursing**
The profession of nursing, as an art and science, is unique in that it is practiced independently or interdependently in a variety of healthcare environments. Nursing is a complex and challenging profession. As a collaborative member of the healthcare system, the primary purpose is to meet the healthcare needs of individuals, families, communities, and societies.

The professional nurse uses knowledge derived from the arts, humanities, sciences, and nursing sciences to assist clients in health promotion and maintenance, illness prevention, health restoration, or a peaceful death.

The College of Nursing emphasizes integrity and accountability throughout the curriculum. This is achieved by socializing students to practice within the nursing profession’s Code of Ethics and Standards of Practice.

Nurses use critical thinking, the nursing process, nursing research, and independent judgment to effectively communicate with and address the dynamic and changing healthcare needs of their clients across the lifespan. Nurses view the teaching/learning process as a dynamic interaction between individuals, families, communities, and societies to achieve mutually acceptable outcomes. At the time of graduation, nurses are expected to function as entry level generalists who are able to assume a variety of professional and leadership roles in diverse healthcare environments.

**Health**
Health is a dynamic state of well-being that is impacted by internal and external environmental factors. Given the reciprocal interaction between persons and their environments, the achievement of optimal health is a complex balance of many factors.

Nurses work within the context of an individual’s situation to assist him/her to meet an optimal level of well-being. Ideally, health reflects an optimal level of well-being in biological, psychosocial, cultural, and spiritual dimensions. The optimal level of health is achieved through education and health promotion across the lifespan.

**Person**
Each person is a biopsychosocial being with unique values, beliefs, intellect, cultural, spiritual, and physical makeup. Individuals are complex beings who self-define their optimal health and seek and accept nursing care based on those needs. The client may be an individual, a family, a community or a society that possesses unique and dynamic healthcare needs.
Environment
The environment is a complex set of numerous interacting external and internal factors that influence, and are influenced by, health and health care. This encompasses the broadest definitions of biological, social, and physical characteristics, and is a dynamic influence in health status. The environment has the potential to impact the biopsychosocial well-being of the individual, the family, the community or the society.

Caring
The essence of nursing is caring. Caring transcends, is communicated and incorporated in all aspects of nursing.

College of Nursing Conceptual Framework
College of Nursing Program Outcomes

- Synthesize knowledge from the sciences, humanities, and nursing sciences as a foundation for professional nursing practice.
- Utilize social, scientific and nursing theories and principles, and the nursing process to provide quality care to individuals, families, communities, and societies.
- Demonstrate competency in functioning as a collaborative member of the healthcare team by using interventions that progress from simple to complex.
- Demonstrate critical thinking for effective problem solving, decision-making, and independent or interdependent judgment to meet the diverse healthcare needs of individuals, families, communities, and societies.
- Apply communication theories, skills, and techniques (written, oral, and technological) to facilitate effective and therapeutic relationships with clients, the healthcare team, and the general public.
- Demonstrate respect for the diverse cultural, spiritual, ethnic, and religious healthcare practices of others.
- Utilize teaching/learning principles to design effective teaching plans for individuals, families, communities, and societies.
- Participate in the political regulatory processes to be a more effective healthcare advocate.
- Demonstrate effective leadership and management skills in professional nursing practice.
- Demonstrate a commitment to life-long learning for professional growth and development.
- Provide culturally competent and developmentally appropriate care in the practice of nursing.
- Evaluate research findings for application to professional practice.
- Accept personal responsibility and professional accountability for adherence to professional, legal, and ethical standards of practice.
- Function as a generalist able to assume entry-level professional roles in diverse healthcare environments.
- Utilize the concept of caring to practice professional nursing in a competent and respectful manner.
# Progression Outcomes as Related to Philosophy

<table>
<thead>

Curricular Overview
The curriculum is designed to reflect the relationship among and between the metaparadigm concepts of nursing, health, person, and environment. The organizing framework, derived from the Philosophy of the College of Nursing, provides the template for the terminal outcomes of the curriculum. Each nursing Block produces outcome competencies related to Block and terminal outcomes. Where appropriate, threads in each clinical Block consist of pathophysiology, nutrition, pharmacology, legal-ethical, developmental stages, and culture. The curriculum is designed to facilitate students’ professional progression from basic knowledge and skills to advanced critical thinking/clinical reasoning, problem solving, and independent judgment.

Block Descriptions

Block 1.0 (NURS 300) - Introduction to the Profession
This Block is an introduction to professional nursing from historical, social, legal-ethical, political, economic, theoretical, and cultural perspectives. An overview of the professional roles of the nurse in healthcare environments is introduced. 3 credits (45 contact hours)

Block 2.0 (NURS 301) - Health Assessment
This Block is designed to introduce the student to the basic principles, knowledge, and motor skills required for a comprehensive health assessment of clients within a legal/ethical framework in a laboratory setting. The student will also develop interview and therapeutic communication techniques that may be used in the assessment of clients across the lifespan. 3 credits, laboratory component (90 contact hours)

Block 3.0 (NURS 302) - Fundamentals of Nursing
This Block provides the fundamentals of nursing principles and practice related to basic health needs of individuals. Students will learn the basic principles, skills, and behaviors essential to safe, effective nursing care of the client. 4 credits, with laboratory component (75 contact hours) Prerequisites: Block 2.0 and Documentation showing completion of all clinical requirements given to the Director of Clinical Resources

Block 3.1 (NURS 302.1) - Fundamentals of Nursing and Basic Skills
Students will apply basic skills and nursing principles in clinical settings. 1.8 credits (72 contact hours) Prerequisite: Block 3.0

Block 4.0 (NURS 303) - Nursing Pharmacology
This Block provides students with an analysis of the physiological actions, therapeutic uses, adverse effects, drug interactions and safe administration of selected drugs. Emphasis is placed on the application of the nursing process as the framework for safe administration of drugs. 3 credits (45 contact hours) Prerequisite: Block 3.1

Block 5.0 (NURS 304) Adult Health Nursing I
This Block builds on the fundamentals of nursing. Emphasis is placed on care and management of adult clients experiencing alterations in health. 7.5 credits with laboratory component (142 contact hours)
Block 5.1 (NURS 304.1) - Adult Health Nursing I – Clinical
Students will further develop psychomotor skills essential for professional nursing practice. Students will synthesize knowledge using the nursing process to manage care for adult clients. 2.7 credits (108 contact hours) Prerequisite: Block 5.0

Block 6.0 (NURS 305) - Nursing Theories, Practice and Issues
This Block focuses on nursing theories and their relevance to professional practice. Students are introduced to practice models in various health care environments. Future and current issues in nursing practice will be explored. 3 credits (45 contact hours)

Block 7.0 (NURS 401) - Nursing Research
This Block introduces the student to fundamental concepts in nursing research and focuses on understanding the purpose of research as a major contributor to nursing science, interpretation of study results, and cultivation of critical thinking through the research critique. Concepts of evidenced-based practice in nursing are emphasized. 3 credits (45 contact hours)

Block 8.0 (NURS 402) - Maternal Newborn Nursing
This Block focuses on the healthcare needs of childbearing women and their families through all stages of the perinatal period and childbirth. Emphasis is placed on the growth and development of the fetus and needs of the mother, the newborn, the family, and support systems. High risk pregnancies, labor complications and the physiologically challenged neonate are also covered. 5 credits with laboratory component (90 contact hours) Prerequisite: Block 5.1

Block 8.1 (NURS 402.1) - Maternal Newborn Nursing – Clinical
Clinical experience will focus on age appropriate care for uncomplicated pregnancies, healthy newborns, and to women with complicated pregnancies. 2.7 credits (108 contact hours) Prerequisite: Block 8.0

Block 9.0 (NURS 403) - Pediatric Nursing
This Block focuses on the healthcare of children from infancy through adolescence. Emphasis is placed on the needs of the child, the family, and their support systems throughout developmental milestones. 5 credits with laboratory component (90 contact hours) Prerequisite: Block 5.1

Block 9.1 (NURS 403.1) - Pediatric Nursing – Clinical
Clinical experience will focus on age appropriate care for infants, children, and adolescents in supervised clinical environments. Emphasis is placed on incorporating the family and support systems in meeting the child’s developmental needs. 2.7 credits (108 contact hours) Prerequisite: Block 9.0

Block 10 (NURS 306) - Adult Health Nursing II
This Block includes a more in-depth analysis of adult clients experiencing acute, chronic, and critical alterations in health status. 7 credits, with laboratory component (135 contact hours) Prerequisite: Block 5.1
Block 10.1 (NURS 306.1) - Adult Health Nursing II – Clinical
Students will build upon previous clinical experiences to manage care of adults experiencing acute or critical alterations in health status. 3.6 credits (144 contact hours) Prerequisite: Block 10.0

Block 11.0 (NURS 409) – Community and Mental Health Nursing
This Block focuses on the theories and principles that guide nursing care for clients’ across the lifespan experiencing alterations in mental health while addressing the social determinants of health within the community. Emphasis is on psychopathology and therapeutics, community assessment techniques and community interventions. Various healthcare delivery systems will be explored. 8 credits (120 contact hours)

Block 11.1 (NURS 409.1) – Community and Mental Health Nursing – Clinical
Clinical experience will focus on management of psychiatric clients in supervised clinical environments. In addition, students will serve as case managers for clients and study an in-depth community health issue. 4 credits (160 contact hours) Prerequisite: Block 11.0

Block 12.0 (NURS 410) – Care of the Older Adult
This Block focuses on the health care issues and needs of older adults across the health care continuum in various environments. The process of aging is analyzed utilizing various theoretical perspectives that include physical, emotional, and social aging and their impacts on the older adult and their families. The complex interplay of the political, economic, cultural, legal, and ethical factors that influence health care delivery to older adults is examined. 3 credits (45 contact hours)

Block 13.0 (NURS 406) – Leadership
This Block focuses on the theories and principles of nursing leadership and management in healthcare environments. 3 credits (45 contact hours). Prerequisite All previous blocks and all prerequisites including the United States and Nevada Constitution courses.

Block 14.0 (NURS 407) - Senior Practicum
This Block focuses on the transition from a student nurse to a professional registered nurse in the coordination and delivery of healthcare. Emphasis is placed upon management and leadership skills. 3.6 credits (144 contact hours) Prerequisite: Block 13.0

Block 15.0 (NURS 408) - Senior Seminar
This Block synthesizes the legal-ethical framework governing professional practice, explores issues and trends of professional nursing and prepares the students to take the NCLEX-RN exam. Students must successfully complete the designated Comprehensive Predictor, as the final Block assessment. 3 credits (45 contact hours) Prerequisite: All Blocks

Graduation
Graduation from the College of Nursing with a Bachelor of Science in Nursing degree requires successful completion of prerequisite coursework and all Blocks described in the nursing curriculum.
National Council Licensure Examination NCLEX

Students must file a request to take the NCLEX exam prior to graduation. Since the NCLEX is a computerized exam, candidates select the date and time to take their exam after graduation from the College of Nursing. Students may take the exam outside of Nevada. However, they should contact the state board of nursing in the state where they will register to take the exam.

Students who have been convicted of or have had an adjudication of guilt withheld on any criminal matter are encouraged to contact the Board of Nursing in the state in which they desire to become licensed to discuss eligibility for licensure. Eligibility for licensure is determined by the State Board of Nursing.

NCLEX Code for College of Nursing: 89-506

Questions regarding eligibility for registered nursing licensure in Nevada should be directed to:

Nevada State Board of Nursing
5011 Meadowood Mall Way #201
Reno, NV 89502
Telephone: (775) 687-7700
FAX: (775) 687-7707

Or

Nevada State Board of Nursing
2500 West Sahara Avenue, Suite #207
Las Vegas, NV 89102-4392
Telephone: (702) 486-5800
Toll Free: 1-888-590-6726
FAX: (702) 486-5803
Website: www.nursingboard.state.nv.us
Email: lasvegas@nsbn.state.nv.us
Core Performance Standards*

These standards are not used to determine admissions or continued enrollment. They are used to assist the student in determining whether or not accommodations or modifications are needed. If a student believes that he or she cannot meet one or more of the standards, the Dean of the College of Nursing, or his or her designee, will determine if necessary and reasonable accommodations or modifications are needed.

- **Communication**
  - Defined as ability to interact verbally and in written format with peers, clients, and healthcare professionals. This includes explaining treatment procedures, initiating health teaching, performing nursing documentation, and interpreting nursing actions and patient/client responses.

- **Critical Thinking**
  - Ability sufficient to make sound clinical judgments. This is necessary to identify cause and affect relationships in clinical situations and develop nursing care plans.

- **Hearing**
  - Auditory ability sufficient for monitoring and assessing health needs, including the ability to hear monitors, alarms, emergency signals, auscultatory sounds, and cries for help.

- **Interpersonal**
  - Abilities sufficient for interaction with individuals, families, and groups from various emotional, social, cultural, and intellectual backgrounds. This skill is necessary to establish rapport with patients/clients and colleagues.

- **Mobility**
  - Physical ability sufficient for movement in small spaces and client rooms. This also requires the ability to lift and assist clients or move machinery without injury to self or others.

- **Motor Skills**
  - Gross and fine motor abilities sufficient for providing safe and effective nursing care. This includes administering medications, calibrating or using equipment, and performing cardiopulmonary procedures.

- **Tactile**
  - Tactile ability or sense of touch sufficient to perform physical assessment and other therapeutic modalities. Must be able to perform palpation, functions of physical examination, percussion, and therapeutic interventions.

- **Visual**
  - Visual ability sufficient for observation and assessment necessary for nursing care. Must be able to visually observe patient/client needs and responses.

*Core performance standards required for nursing, Board of Directors, Southern Council on College Education for Nursing. (SCCEN), 1993*
Emails
Students must check their Roseman email on a daily basis. Roseman and the College of Nursing use the student’s Roseman email as the primary method of communication.

Student Evaluations of Blocks and Block Faculty
At the completion of each Block, students are provided the opportunity to evaluate the content of the block, the instructional strategies used to meet the block outcomes and/or the clinical facility. The evaluations are used as a tool to determine if changes need to be considered or made to improve the Block.

Evaluation of the faculty performance as a facilitator should be growth promoting, constructive, fair and impartial and based on the stated outcomes for the Block. The evaluation of the didactic component of the Block and the faculty performance as a facilitator is usually scheduled on the last day of instruction prior to the final assessment. The exact date and time is communicated to the student in the Block syllabus.

The evaluation of the clinical component and the clinical facility is usually scheduled on the last Friday of the clinical rotation at a time designated by the Director of Clinical Resources and just prior to the administration of the standardized proctored assessment for the respective Block.

Results of the faculty evaluations by students are not released to the faculty until the Block has been completed. Handwritten comments by the students or clinical facility staff is never provided to the faculty members. Any comments written by students or clinical staff are typed by the Administrative Assistant, reviewed by the Dean and provided to the faculty in a typed-written format.

Recording
Students must obtain permission from the faculty member or guest speaker to audio or video record class lectures and/or conversations. All authorized recordings are to be used solely for the student’s academic instruction. Under no circumstances will any portion of the recorded lecture and/or conversation be posted in audio or written format to any outside media (i.e., Facebook, Twitter, etc.). All recorded lectures and/or conversations must be destroyed when the student has passed the block or upon withdrawal from the university. If the faculty member does not consent, the student must not record the faculty member’s lecture or conversation. Failure to comply with this recording policy can result in disciplinary action as indicated in the CON Student Handbook, Academic and/or Professional Misconduct.

Attendance
Attendance is required at all scheduled instructional periods, scheduled assessments, and remediation periods. Absence from instructional periods for any reason does not relieve the student from responsibility for the material covered during that period. Absence from scheduled assessments or remediation is excused only under the following conditions:

- Documented Student Illness
  - A licensed practitioner or physician may provide documentation of an illness.
  - A student may be excused from a class or clinical based on the faculty member’s observed illness of the student.
- **Personal Emergency**
  - Emergency in the student’s immediate family, which includes parents, guardian, spouse, child, or sibling. This includes death, hospitalizations, or other emergency situations. The student must contact the Associate Dean (if didactic/lab) or the clinical faculty (if clinical) to notify him/her of the situation.

- **Attendance at Professional Meetings**
  - Attendance is encouraged at professional meetings. The student must get approval from the Associate Dean at least (2) two weeks in advance of such meetings, and must be in good standing academically. If approval is granted and the student does not remain in good academic standing, approval will be rescinded. The student will be responsible for any expenses incurred.

**Attendance in Didactic Blocks**
Attendance at lecture, lab and seminars is mandatory. The student will be held responsible for the information and content distributed therein. Due to the large amount of information that will be presented, class time will not be used for student announcements and meetings.

After an absence from class, whether excused or unexcused, the student is expected to return to scheduled classes. The Block faculty will address excused absences on a case-by-case basis. Excused absences will be granted by Block faculty. Any absence from lab, whether excused or unexcused, must be made up during the student’s free time. The student must schedule a date and time with the lab coordinator to make-up missed lab content.

**Attendance is Required at all Scheduled Assessments**
If a student is ill or experiences a personal or family emergency (defined below) that would prevent him/her from taking a scheduled assessment or reassessment, the student must request an excused absence. Students should make this request to the Block Coordinator.

The decision to grant an excused absence is at the discretion of the Block faculty. The student who fails to provide requested documentation or fails to inform the Block Coordinator within the timeframes specified may be denied an excused absence. Falsification of documentation is considered a violation of the College’s Standards of Professional Conduct and will result in disciplinary action up to and including dismissal.

**Student Illness**
Should a student be unable to take a scheduled assessment or reassessment due to illness or an emergency, he/she must notify the Block Coordinator via telephone or in writing no later than 1 hour prior (most assessments start at 8:00 AM) to the scheduled assessment or reassessment. The Block Coordinator can be notified via telephone, e-mail, or by fax. The Block Faculty may request that the student provide documentation of the illness to determine if granting an excused absence is warranted.

**Personal or Family Emergency**
In the event of a personal emergency or an emergency in his/her immediate family (“immediate family” is defined as parent, guardian, spouse, child, or sibling) that would preclude him/her from attending a scheduled assessment or remediation, the student should notify the appropriate Block Coordinator as soon as possible following the event, but no later than 1 hour prior to the scheduled assessment/reassessment. “Emergency” situations include, but may not be limited to hospitalization, death of a family member, or other unforeseen, debilitating events. The Block Coordinator can be notified via telephone, e-mail, or by fax. The Block Coordinator and the Block faculty will determine whether or not a request for an excused absence may be granted based on the nature of the
emergency. The Block Faculty may request that the student provide documentation of the emergency to determine if granting an excused absence is warranted.

If a student is absent and excused, the student will take the initial remediation assessment as the actual assessment. If the student is not successful, then the student will be given a remediation assessment.

**Attendance in Clinical Blocks**
Attendance at clinical sites for the entire assigned time period is mandatory.

The student is responsible for notifying the clinical instructor in advance if she or he will be absent from clinical. Excused absences will be granted only by the Director of Clinical Resources or Clinical Coordinator. Students are required to complete all clinical assignments and clinical hours, even if the absence is excused. The student must make-up time missed from the clinical rotation during the designated remediation period, if any. Clinical make up time is based on availability and is not guaranteed.

**Punctuality in Clinical Blocks**
Being on time for the start of clinical shift conferences and meetings is a sign of professionalism and is therefore mandatory. The report time is determined by the faculty member. The failure to report on time may constitute a clinical absence. A student will be considered tardy when he/she arrives after the time designated as the beginning of the shift by the assigned clinical faculty. If the student is tardy two (2) times, he/she must make up one (1) clinical day. For every subsequent day that the student is tardy, he/she will make up one (1) day. The student will be required to make up the time missed during the scheduled remediation.

**Clinical Ticket**
A clinical ticket is required for admittance into all clinical rotations (this includes remediation). The clinical ticket identifies the enrollment status and expiration dates for clinical requirements.

The student must pick up the Clinical Ticket from the Director of Clinical Resources’ office prior to the start of each clinical rotation. The Ticket must be given to the clinical faculty at the start of the clinical day.

Students will not be permitted to attend a clinical rotation without a Clinical Ticket. Any time spent in a clinical rotation without a clinical ticket will not count as attendance. The student must make up all days spent in a clinical rotation without a clinical ticket. Any time that is missed during a clinical day requires a full day of make-up, plus orientation time as specified by the clinical agency (if applicable).

**Clinical Remediation**
Remediation for clinical absences is based on the availability of clinical sites and is Not Guaranteed. Any student with an unexcused clinical absence will not be granted remediation, will be given an Incomplete (I) and will have to repeat the Block the next time it is offered. Clinical remediation for any student with documented personal illness and/or family emergency is contingent on the availability of clinical sites. Excused clinical absences will be granted only by the Director of Clinical Resources or his/her designee.
Clinical Attendance Requirements During Remediation

- Students are required to attend remediation to make up excused missed clinical days as stated in the Student Handbook.
- Clinical remediation means that the student must have an 8-12-hr patient care assignment. Any orientation requirements will be in addition to the clinical remediation day(s).
  - Example – if the student has missed one clinical day and is required to attend orientation, the student will have an orientation day and a clinical remediation day. This means the student will be in the facility for 2-days.
- Students are required to comply with facilities’ orientation requirements, live presentation or self-study.
  - Orientation may include attending a live orientation presentation and familiarizing oneself with the clinical environment.
  - The student may not have to attend an orientation if he/she has recently completed a clinical rotation at the facility where he/she is assigned for remediation and it does not violate the facility’s orientation requirements.

Evaluation of Student Progress

The curriculum is not organized in the traditional semesters or quarters. The University uses the “Block System” of curricular design, which provides students with the opportunity to study one content area intensely and master it without distractions from other subjects. Therefore, the student’s progression within the nursing program is dependent on the mastery of the subject matter necessary for application in the subsequent Block.

Level of Achievement

The University has set the standard of achievement for each Block at 90%. That means that in order to receive a “pass”, or “P”, a student must achieve a score of 90% or higher on each assessment.

The College of Nursing is committed to creating an environment whereby students are provided additional learning opportunities to achieve the standard of 90% on all block requirements. Thus, students are provided the opportunity to remediate Assessments, skills, and other educational assignments to achieve the 90% passing grade. Remediation provides students the opportunity to work with the faculty to identify areas that require additional focus and mastery, develop learning strategies, and re-test or rewrite the educational assignment.

Students are given additional opportunities through remediation to achieve the standard of 90% in order to accommodate different styles and rates of learning.

Assessment Process

Each student takes an individual Assessment. Once the individual assessments are completed, and prior to scores being distributed, students take the group assessment.
**Group Test**

Once the individual assessment is completed, students will convene with their respective groups to take the same assessment. Students will be allowed one hour for the group test. Students in the group must agree on one answer per test item and record their final answer on the Scantron answer sheet. All students must participate in the group assessment process. Each group that scores a 90% or greater will have 5 percentage points added to each student’s individual raw score, in that group.

- 60 questions: 3 points added to raw score
- 80 questions: 4 points added to raw score
- 100 questions: 5 points added to raw score

**Challenges**

Students are allowed 30 minutes to challenge test items and may use their textbook and any other assigned materials to support their challenges of test items. The use of computers and other electronic devices are not allowed during the challenge process. To be considered, challenges must reference assigned readings, handouts or lecture material. All challenges must be on the challenge form provided to students after the group assessment and contain the appropriate reference(s) supporting the challenge.

Individual assessment items may not be appealed. The student may challenge an assessment item(s) only during the challenge process provided after each group assessment is completed. Once a decision has been made regarding each challenge that assessment item will no longer be open for debate or appeal.

**Final Grade**

Once the item analysis and the students’ individual scores are calculated, students who have not earned the required 90% will be provided an opportunity to remediate the Block during the Block remediation.

Students who do not achieve a 90% on any assessment are required to meet with the Block Coordinator and/or Block members to develop an Academic Intervention Action Plan. See Appendix A for Academic Intervention Action Plan. Students will have a designated period to study the content and take another assessment that tests the same concepts using different questions. In a Block with projects/papers, students who do not achieve a 90% based on the established evaluation rubric/criteria must revise/rewrite and resubmit the project/paper at the designated time to meet the 90% standard.

**Student Participation in Assessments**

No student will be allowed to take a remediation assessment unless that assessment is required to pass the Block.

**Corrections on Assessments**

Corrections will be displayed on the overhead as identified. Corrections will not be announced verbally until the end of the assessment. Students will receive an additional two minutes for each correction needed.
Time Allocation Per Test item
Students will be allowed 1.5 minutes per test item for the class assessment. Examples are displayed below:

- 60 questions = 90 minutes
- 80 questions = 120 minutes
- 100 questions = 150 minutes
- Group Assessment = 1 hour
- Challenges = 30 minutes

Item analysis
Members of the Block team and the appropriate nursing administrator or his/her designee will automatically review each test item where the students have scored a 60% or less, even if the item is not challenged. The students’ challenges to any test item will also be reviewed at this time.

Student Review of Old Assessments
No review of old assessments will be allowed for students repeating a Block.

Remediation

Block Remediation
Remediation for each didactic Block usually occurs on the Monday following the final assessment if administered on the previous Friday. If the assessment is not administered on a Friday, there will be at least 24 hours between the assessment and the remediation assessment. The remediation assessment will test the same concepts and outcomes, using different questions.

Scheduled Remediation Periods
The College of Nursing provides remediation periods after the completion of Block 5.1, Block 11.1, and Block 15. During the scheduled remediation periods, a student may only remediate the Blocks preceding the remediation period. Students can only remediate one didactic and one clinical Block during the scheduled remediation period.

Remediation is considered part of the regular educational process and, as such, the University does not charge additional fees or tuition for remediation.

Unsatisfactory Progress During Scheduled Remediation
If a student does not successfully achieve the desired competencies during the scheduled remediation period, he/she will be required to attend the Block the next time it is offered. The student’s status in that case will be “not in good academic standing”, and an F will appear on the transcript.

1. The student may be assessed tuition for that Block or portion of a Block based on its proportion of the entire curriculum.
2. The student must repeat the Block the next time it is offered. See Appendix B for the Withdrawal and Re-Admission Policy.
3. A student who does not repeat the Block the next time it is offered on the curriculum calendar must reapply to the nursing program. The decision as to when a student may re-enter the curriculum and the conditions of re-entry will be made on a case-by-case basis by the Dean of the College of Nursing. The student may appeal an adverse decision by the Dean to the Chancellor. The Chancellor’s decision is final.
Program Progression – Didactic

Foundation Blocks
Based on the nature of nursing education, students must acquire basic knowledge, skills and competencies for successful matriculation to other Blocks. The Blocks designated as Foundation Blocks contain a series of Blocks that are progressive in nature; therefore, students must complete the lower level Block to progress to the next Block. Students must pass Block 2.0 (Health Assessment) to progress to Block 3.0 (Fundamentals of Nursing), Block 3.0 to progress to Block 3.1 (Fundamentals Clinical), Block 3.1 to progress to Block 4.0 (Nursing Pharmacology). A student who does not achieve a 90% after the Block remediation in the Foundation Blocks will receive a No-Pass (NP) for the Block and must withdraw from the program for academic reasons. The student’s status at the time of this withdrawal is “not in good academic standing”. The student must repeat the Block the next time it is offered on the curriculum calendar, if space is available in the requested class.

The student is required to retake the entire Block and complete all required Block assignments/assessments. The student’s transcript will reflect a grade of “NP”. If the student re-enrolls and successfully completes the Block the next time it is offered on the curriculum calendar, the “NP” grade will be changed to a “P”.

Students who receive a No-Pass in a Block and have to repeat the Block will be placed on Academic Probation. The notation of Academic Probation will be reflected on the transcript even upon successful repeat of the Block.

Non-Foundation Blocks
Non-foundation Blocks do not require foundational knowledge from the previous Blocks. A student who receives a No-Pass (NP) after the Block remediation assessment must attend the scheduled remediation and complete all requirements for the Block(s). The student’s transcript will contain a grade of Incomplete ("I"). If the student successfully remediates the Block, the “I” grade will be changed to a “P”. If the student does not pass the remediation the “I” grade will be changed to a No-Pass (NP). The student’s status will be “not in good academic standing”. The student may retake the Block the next time it is offered on the curriculum calendar, if space is available in the requested class. The student’s transcript will reflect a grade of “F”. If the student re-enrolls and successfully completes the Block the next time it is offered on the curriculum calendar, the “F” grade will be changed to a “P”. Students who receive a No-Pass in a Block and have to repeat the Block will be placed on Academic Probation. The notation of Academic Probation will be reflected on the transcript and remain even after successful repeat of the Block.

Prerequisite Blocks
In Blocks with a corresponding clinical component, students must successfully complete the didactic component of the Block to be eligible to progress to the clinical component. Students must have successfully completed all Blocks and all prerequisites, including the United States and Nevada Constitution courses to progress to Block 13.0 (Nursing Leadership).

Incomplete Assignments
Unless excused, the student who does not complete and submit all assignments at the scheduled date and time will not be eligible to take the final Block assessment and must repeat the didactic Block the next time it is offered on the curriculum calendar, if space is available in the requested class. Students
who are excused must complete and submit all assignments and assessments at a time and date designated by the faculty to be eligible to take the final Block assessment.

No-Pass in Two Blocks or a Repeated Block
A student who receives a No Pass in two Blocks or a second No Pass in a repeated Block after remediation will be dismissed from the College of Nursing and will be considered not in good academic standing. The student is not eligible for re-admission and/or admission into any of the Roseman College of Nursing Programs.

Program Progression – Clinical
Clinical formative and summative evaluations shall be performed in each clinical rotation. All evaluations will receive a “Pass” or “No Pass” grade. Evaluations will be assessed by level and terminal outcomes, program outcomes, and core performance standards. Students are required to remediate if his/her clinical performance is unsatisfactory. A “No-Pass” clinical grade in a foundation Block will prevent progression to the next Block. The student’s status will be “not in good academic standing”. The notation of “Academic Probation” will be noted on the transcript and will remain even after successful repeat of the Block. Any violation of university, college, or clinical agency policy may compromise the student’s ability to achieve clinical outcomes. Students should carefully review all policies and procedures related to clinical experiences.

If a student is demonstrating unsatisfactory clinical performance, a Clinical Intervention Action Plan will be completed by the clinical faculty and reviewed with the student. The faculty member will notify the Director of Clinical Resources and submit the Clinical Intervention Action Plan (See Appendix C for Clinical Intervention Action Plan form).

During remediation, the student will have the opportunity to achieve the desired competencies. The student will be assessed again on all competencies throughout the remediation period. Duration, scheduling, and other requirements for remediation will be determined by the nursing faculty in conjunction with the Director of Clinical Resources. Remediation is considered a part of the regular educational process and, as such, the University does not charge additional fees or tuition for remediation. During the designated remediation periods, students are allowed to remediate a maximum of one clinical and one non-clinical Block. Student cannot make up clinical days in a block while completing remediation of another clinical block. Therefore, students cannot remediate two clinical blocks during the designated scheduled remediation period for the blocks.

Incomplete Assignments
Unless excused, the student who does not complete and submit a clinical assignment at the scheduled date and time will be given a Clinical Intervention Action Plan. A student who has received a Clinical Intervention Action Plan for failure to complete and/or submit a satisfactory or completed clinical assignment and has a repeated occurrence will not be eligible to complete the Block and will receive a grade of “I”. The student must repeat the clinical rotation the next time it is offered on the curriculum calendar, if space is available in the requested class. Students who are excused must complete and submit all clinical assignments at the time and date designated by the faculty and complete all clinical hours to successfully complete the Block.
Privacy Rights

Release of Grades
Release of grades will comply with the Family Educational Rights and Privacy Act (FERPA). This Act prohibits public posting of grades using social security number or student identification numbers without the un-coerced written consent of the student. Student grades will not be posted, or released to other students.

On admission, each student will be assigned a student number. This number will be used as the identification number on each assessment, paper and/or project. Mailing grades is permitted if the student has signed a release and provided a self-addressed stamped envelope.

Academic Standing
A student is considered not in good academic standing if he/she has been administratively withdrawn, or has been dismissed from the College of Nursing.

Transcripts
The transcript reflects the Block subjects taken, the credit in the form of credit hours for the number of hours spent in class, and the grade point average (GPA). Students receive one credit hour for every 15 hours spent in a didactic classroom setting, one credit for every 30 hours spent in laboratory, and one credit hour for every 40 hours spent in a clinical setting.

If a student has not achieved the required 90% on any assessment or paper/project in a Block and withdraws prior to successfully remediating the Block requirements, the student will be considered “not in good academic standing” and the notation, Academic Probation will appear on the student’s transcript. If a student is required to remediate a Block during the scheduled remediation period, an Incomplete (“I”) will appear on the student’s transcript until the Block is successfully remediated. If the Block is successfully remediated during the corresponding designated remediation period for that Block or during the next time the Block is offered on the curriculum calendar, the “I” grade will be changed to a Pass (“P”). If the Block is not successfully remediated during the designated remediation period, the “I” grade will convert to a No-Pass (NP).

If a student receives a “NP” in a Block after the designated remediation period or the next scheduled Block, an “F” will appear on the student’s transcript until the Block is successfully passed. Students who receive a No-Pass in a Block and have to repeat the Block will be placed on Academic Probation. The notation of Academic Probation will be reflected on the transcript even upon successful repeat of the Block.

For students beginning their program of study on or after July 1, 2014, all block/course grades and the transcript records will no longer show the passing grade as “A” and a No-Pass grade as an “F”. The transcript will show a “P” for a pass grade and a “NP” for a grade of No-Pass.
Withdrawals from the College of Nursing Program

University Withdrawal
Attendance is a privilege granted in consideration of specified levels of performance and established standards of professional conduct and personal behavior. To safeguard appropriate standards of conduct, the College of Nursing reserves the right to require student withdrawal for violations of policies and procedures. The student will be afforded the appropriate due process rights.

Administrative Withdrawal
Students who leave the nursing program without completing the established procedures within five (5) days will be administratively withdrawn from the University. Students who are administratively withdrawn in this manner must complete the re-admission process. Re-admission is not guaranteed. (Refer to Appendix B)

Voluntary Withdrawal
Application for voluntary withdrawal from the nursing program must be made in writing to the Dean/Associate Dean of the College of Nursing. Except in rare and special circumstances, the application will be accompanied by a personal interview with the Dean/Associate Dean. Every effort should be made by the student to ensure that no misunderstandings or errors occur in the withdrawal process. Following written notification by the student and the personal interview with the Dean/Associate Dean, the necessary forms to process the official withdrawal will be given to the student.

Students who leave the nursing program without completing the established procedures within five (5) days will be administratively withdrawn from the University. Students who are administratively withdrawn in this manner must complete the re-admission process. (Withdrawal is not complete until the required forms are signed by the student and the Dean of the College of Nursing.)

The Procedure for Voluntary Withdrawal
The procedure for voluntary withdrawal is as follows:

1. The student makes a written request to the Dean/Associate Dean of the College of Nursing to voluntarily withdraw.
2. The Dean/Associate Dean or his/her designee prepares the necessary forms for withdrawal and schedules a withdrawal interview.
3. A withdrawal interview is scheduled with the student and the Dean/Associate Dean, at which time the terms of withdrawal are agreed upon and put in writing. A student who withdraws and has not completed Block remediation requirements will be considered, “not in good academic standing.”
4. The completed withdrawal forms, including the terms of withdrawal (if any), are signed by the student and returned for signature to the Dean.
5. Once all forms are signed and dated, the withdrawal process is complete.
Conditions for Re-Admission for Students Who Voluntarily Withdraw
Students who voluntarily withdraw and wish to re-enroll in the nursing program must meet request approval from the Dean/Associate Dean. Students are not guaranteed readmission, unless the possibility of re-admission is a part of the final written decision and/or agreement with the Associate Dean. Students who reapply and are granted re-admission following withdrawal in good academic standing may re-enter at the appropriate time the next time the Block is offered on the curriculum calendar, if space is available in didactic and clinical Blocks.

Leave of Absence
A student in good academic standing, (i.e., not on Academic Probation), may request a leave of absence due to occurrence of medical problem(s), serious personal problems, or pregnancy.

Students requesting a leave of absence must apply in writing to the Dean/Associate Dean of the College of Nursing. In the event of a medical problem, the request must be accompanied by a letter from a physician describing the nature of the condition for which the leave is requested and the estimated length of time needed for recovery. The Associate Dean shall determine if and when the student may return to school.

A student, who is granted a leave of absence must submit a letter of intent to return to classes to the Associate Dean at least three months prior to the requested date of return. It is the student’s responsibility to keep the Associate Dean informed of any change of address while on a leave of absence.

Leaves of absence may be granted for a maximum of 180 days. The terms and conditions of the leave will be determined by the Dean/Associate Dean of the College of Nursing.

Procedure for Leave of Absences
The procedure for obtaining a leave of absence is as follows:

1. The student makes a written request for a leave of absence to the Dean/Associate Dean.
2. The Associate Dean will prepare the necessary leave of absence forms.
3. The Associate Dean and the student will meet to discuss the request.
4. The Associate Dean will determine whether or not to grant the request and the terms of the leave of absence, if granted.
5. Any terms will be put in writing and signed by the student, the Dean/Associate Dean, and the Dean.

Academic Withdrawals
A student is considered an academic withdrawal if he/she does not achieve the required 90% on Block Assessments and/or Projects/Papers and withdraws or is required to withdraw from the College of Nursing.
The Procedure for Academic Withdrawal
The procedure for academic withdrawal is as follows:

1. The Dean/Associate Dean prepares the necessary forms for withdrawal and schedules a withdrawal interview.
2. A withdrawal interview is scheduled with the student and the Dean/Associate Dean, at which time the terms of withdrawal (if any) are agreed upon and put in writing. The student will be considered, “not in good academic standing.”
3. The completed withdrawal forms, including the terms of re-admission (if any) and re-admission paperwork (if applicable), are signed by the student and returned for signature to the Dean/Associate Dean of the College of Nursing.
4. Once all forms are signed and dated, the withdrawal process is complete. (Withdrawal is not complete until the required forms are signed by the student, the Dean/Associate Dean, and the Dean of the College of Nursing.)

Re-attending Blocks in the College of Nursing
A student who has not successfully completed a Block and will re-take the Block the next time it is offered on the curriculum calendar may re-attend the previously successfully passed Blocks to refresh his/her knowledge with prior written approval from the Dean/Associate Dean. The student must notify the College of Nursing that he/she wishes to re-attend no later than the first day of the Block. The student who attends the didactic component of a Block will not be required to pay tuition or fees and may not take assessments. The student will not receive additional credit or a grade and will not be subject to attendance requirements. A notation will not be noted on the transcript.

The student who elects to re-attend the skills laboratory component of a Block will be required to pay a fee of $50.00. The fee will be collected at registration. Clinical rotations cannot be re-attended.

F1 Visa Students
To refresh his/her knowledge in a Block and increase the success in subsequent blocks, a F1 visa student who is required to withdraw and has been approved for re-admittance must re-attend that passed Block with prior written approval from the Dean/Associate Dean/Program Director. The student must notify the unit’s Dean (or designee)/Associate Dean/Program Director and the Primary Designated School Official (PDSO)/Registrar that he/she wishes to re-attend no later than the first day of the Block. The student who attends the didactic component of a Block will not be required to pay tuition or fees and may not take assessments. The student will not receive additional credit or a grade and must attend all passed blocks. A notation will not be noted on the transcript.

Students who re-attend and elect to participate again in the Nursing skills laboratory component of a Block, if applicable will be required to pay a lab fee of $50.00. The lab fee will be collected at registration. Clinical rotations cannot be re-attended.
Academic and/or Professional Misconduct

The College of Nursing expects students to be academically honest. To maintain academic integrity and professionalism in the College of Nursing, academic and/or professional misconduct will not be tolerated. All students are expected to behave in a professional manner in all matters relating to their program of study.

The College of Nursing has established what constitutes academic and/or professional misconduct policies.

Academic misconduct includes, but is not limited to the following:

- **Cheating** – Cheating is defined as providing or receiving information and/or assistance during assessments. Examples of cheating include, but are not limited to:
  - Possession of unauthorized copies of assessments (tests) or access to assessments prior to or during the assessment
  - Looking at another person’s answers during an assessment or allowing another person to look at your answers. This applies to hard copy and online assessments.
  - Collaborating with another person during individual assessments or assignments where the work is to be performed by the individual student. Bringing materials or information to an assessment that is not permitted. It does not matter whether you planned to use it or not.
  - Taking an assessment for someone else or having another person take one for you.
  - Doing an independent assignment for someone else or having someone do your independent assignment for you.
  - Exchanging notes or information between students during an assessment.
  - Obtaining unauthorized information about an assessment.
  - Printing and/or removing an assessment from the examination room without permission.
  - Changing an answer that has not been authorized on an assessment that has been returned to you for review. This policy applies whether the assessment has been graded or not.
  - Presenting collaborative work (2 or more) as your own independent work.
  - Utilizing cellular telephones, cameras, laptops, recordings devices, palm pilots, or electronic devices during an assessment, group assessment, challenges and assessment reviews.

- **Plagiarism** – Taking someone’s work and presenting it as your own without acknowledgement or giving credit to the originator of the work. It includes having someone else write a paper or assignment, putting your name on it and submitting it as your own.

- **Fraud** – Intentional misrepresentation or omission of material facts.

- **Misrepresentation** – Providing misleading information.

- **Unethical Behavior** – Violation of any ethical standards in your profession and/or academic program. An example of an unethical behavior is knowingly disclosing or participating in the disclosure of client information to unauthorized individuals.

- **Improper Behavior** – Disruptive behavior in the classroom or other facilities.
• **Unprofessional conduct** - Incompetent, non-collegial, unethical, or illegal conduct which may deceive, defraud or injure clients, fellow students, faculty members, or the public; or deviate from standards of professional conduct; criminal convictions for crimes against persons or property; on university grounds under the influence of non-prescribed controlled substances or alcohol, etc.

• **False Information** – Providing or reporting untrue or inaccurate information.

**Clinical Misconduct**

Any of the following behaviors are sufficient grounds for faculty to determine that the student is unsafe clinically and may not continue in his/her clinical rotations. This decision is based on serious offenses and requires accurate documentation. Behaviors that provide sufficient grounds for faculty to evaluate a student as unsafe include, but are not limited to:

- Failure to meet clinical outcomes
- Actions which place patients, families, oneself, or other humans at risk for physical or emotional harm
- Refusal or failure to follow College of Nursing or clinical on-site agency protocols
- Violation of Health Insurance Portability and Accountability Act (HIPAA) regulations
- Illegal use of drugs or the consumption of alcohol during clinical rotations, or under the influence of drugs, alcohol, or mind-altering medications.
- Providing or reporting untrue or inaccurate information

The student will face immediate disciplinary action that includes probation, suspension and/or dismissal, and the loss of the right to withdraw for any of the following behaviors:

- A deliberate attempt to cover up any error or negligent performance during a clinical rotation.
- Falsification of documentation
- Unsafe, unethical, and/or illegal practices or behavior
- Violations of academic and professional conduct
- Violation of the clinical facility’s policies and procedures
- Violation of Health Insurance Portability and Accountability Act (HIPAA) requirements

A student who is evaluated as unsafe clinically may not continue in clinical rotations. Due process will be provided.

**Sanctions**

A student who has or may have violated the College of Nursing’s policy on academic and/or professional misconduct will be notified verbally and in writing of the violation and of the sanction. The student can then start the grievance process (outlined below). The student may continue to attend classes during the grievance process.

If, after a hearing, the appeals committee finds that the student has violated the academic and/or professional misconduct policy, the committee will make a sanction recommendation to the Dean. Sanctions may range from reprimand to dismissal. A permanent record of the violation will be recorded in the student’s academic file as decided by the Dean. The notation on the transcript will be “Academic Misconduct”.

36
If the committee finds no violation(s), no entries will be made in the student’s academic file or on the transcript.

A student who does not file a grievance within three (3) business days from the time he/she was notified of the violation or potential violation will be subject to the decided sanction.

In case of violations of the Computer and Network “Acceptable Usage Policy” sanctions range from being barred from the campus electronic network to suspension from the University.

**Student Resolution Process (Non-Grievable Issues)**
The College of Nursing seeks to resolve issues and concerns in a fair and just manner for all parties. The student should follow the resolution process for informal issues. The student(s) who has a question, concern, or an issue may initiate the process by the following phases outlined below:

**First Phase: All Involved Parties**

1. The student(s) should meet with individual(s) with whom the concern originated.
2. After meeting with the individual(s) to discuss the matter, if a resolution cannot be reached, the student must continue with the Student Chain of Command which proceeds to phase two and/or three.

**Second Phase:**

- **Block Issue:** All parties involved will meet with the Block Coordinator and Faculty Member(s)
- **Non-Block Issue:** All parties involved will meet with a Student Advisor to discuss the matter(s) and reach a resolution.

**Third Phase: Class Advisor**
If a resolution is not reached with the Student Advisor or Block Coordinator/faculty member(s) (second phase), then all parties will meet with the Class Advisor to reach a resolution.

If the student has gone through all three phases and a resolution has not been achieved, he/she may continue to phase four:

**Fourth Phase: Associate Dean**
The student and parties involved must consult with Dean/Associate Dean for guidance in finding a resolution.

**Fifth Phase: Dean of the College of Nursing (Designee in absence)**
If, after all the phases have been exhausted, a resolution has not been reached, the parties involved must consult with the Dean of the College of Nursing to guide them in reaching a resolution that is within the guidelines of the College of Nursing and Roseman University of Health Sciences’ policies and procedures.
Student Resolution Process Flow Chart

Student Concerns, Issues, Questions

Attempt resolution with parties involved

YES → Block Coordinator & Faculty

NO → Student Advisor

Student Advisor → Faculty Class Advisor

Faculty Class Advisor → Associate Dean College of Nursing

Associate Dean College of Nursing → Dean College of Nursing

Dean College of Nursing
Grievance Procedures

The College of Nursing is committed to mutual respect among all of its members. This commitment includes students, faculty, staff and administration. We seek to resolve issues and concerns in a fair and informal manner. However, should a formal grievance be filed by a student; he/she shall be given the right to due process.

An action or a decision can be grieved if it involves the failure to follow or a misapplication or misinterpretation of University policy, regulation, or rule; or a violation of state or federal law.

Grievances will be reviewed and decisions made based on the evidence presented. In no event shall persons who review a grievance substitute their subjective judgment about the issue or academic quality for that of the professor or other party(ies) involved.

A student should complete the Grievance process prior to withdrawal. Once a student withdraws from the College of Nursing, he/she is no longer a student and, thus cannot file a grievance.

Informal Grievances
Any student in the College of Nursing who believes that he or she has a grievable issue (as defined above) is encouraged to resolve the matter informally. The student must first talk with the person or groups at whom the grievance is directed in an attempt to informally resolve the issue. If this initial attempt is unsuccessful, the student may contact the Dean/Associate Dean for the College of Nursing for assistance in resolving the matter informally. The student must complete the informal grievance process within 3 business days.

Formal Grievance Procedures
The formal grievance procedure is available to resolve issues that have not been satisfactorily resolved through the informal grievance process. The person filing the grievance must be the recipient of the alleged incident leading to the grievance. A grievance cannot be filed on behalf of another person.

Grievances that meet the requirements of a “grievable action/decision” the failure to follow or a misapplication or misinterpretation of University policy, regulation, or rule; or a violation of state or federal law, will be forwarded to the appropriate committee, if requested as outlined below. For issues that are not considered grievable, a student should follow the student resolution process for Non-Grievable issues.

The student may continue to attend classes during the grievance process. Throughout the grievance process, the student may be accompanied by a support person who may advise the student, but cannot speak for or provide information on behalf of the student. The grievance procedure is described below.

1. To initiate the formal grievance procedure, the student must submit his or her grievance in writing to the Dean/Associate Dean of the College of Nursing.
2. The written grievance must include:
   a. A statement indicating how the Informal Grievance process has been followed.
   b. A statement that the student wishes a review of the situation by a grievance committee;
   c. The identification of the person or group at whom the grievance is directed;
d. The specifics of the incident leading to the filing of a grievance;
e. Evidence to support the student’s grievance; and
f. The outcome or resolution desired by the student.

3. The formal grievance process must be initiated no later than two (2) business days after completing the informal grievance process.

4. The Dean/Associate Dean of the College of Nursing will determine if the issue meets the criteria for a grievance. Within 5 business days of receiving and validating the formal grievance, the Dean/Associate Dean shall appoint an ad hoc committee to review the formal grievance. The ad hoc committee will consist of one nursing student and two nursing faculty members. If a nursing student is not available, a student representative may be selected from another discipline. The committee may request a written response from the person or group at whom the formal grievance is directed, may ask for additional information from any or all parties involved, may request that the parties involved appear before the committee, and/or may take other steps in an attempt to resolve the issue.

5. Within 5 business days after receiving the formal grievance from the Dean/Associate Dean, the committee shall send a written report with recommendations to the Dean/Associate Dean. The report shall include notice to the student of his or her right to appeal the committee’s recommendation to the Dean of the College of Nursing. The Dean/Associate Dean will provide a copy of the report to the student and to the Dean. The Dean/Associate Dean will also provide the student with written information of his/her right to appeal.

6. A student wishing to appeal the committee’s recommendation to the Dean of the College of Nursing must submit a written appeal to the Dean within 3 business days of the date of the committee’s report. The request must state the specific basis for appeal and identify the specific aspects of the committee’s recommendation that he or she believes are the subject of the basis for appeal.

Only facts presented to the committee may be introduced to and considered by the Dean. The Dean shall notify the student and the committee in writing within 5 business days of receiving the written appeal, stating the action on the appeal and the grounds for the action taken.

A grievance that is not filed in a timely manner, or is from a person without grievance rights may be dismissed by the Associate Dean. The student may appeal the dismissal decision to the Dean of the College of Nursing.

If the final grievance decision is against the student, the College of Nursing’s policies and procedures that govern the issue will be enforced.

**Grade Appeal**
The College of Nursing is committed to providing an environment that promotes learning and professional growth. Therefore, the College of Nursing will use grading practices that are fair and equitably applied. It is the responsibility of the Block team to clearly define the grading policy in the Block syllabus according to established College of Nursing grading standards.
The formal grade appeal process should only be initiated when the student perceives the grade received does not reflect the criteria established/outlined by the professor. The grade appeal procedure is designed to give the student the opportunity to correct a perceived injustice. It should be used only when the student contends that the final Block grade assigned by the professor is arbitrary, capricious or otherwise in error. “Arbitrary or capricious” implies that a student grade has been assigned on the basis of something other than his/her academic performance in the Block.

Grounds for a Grade appeal may include any or a combination of the following:

- A calculation error in the grade.
- Assignment of a grade based on factors other than student achievement.
- Inconsistently applied standards for evaluation of student academic performance.

Individual assessment items may not be appealed. The student may challenge an assessment item(s) only during the challenge process provided after each Group assessment is completed. Once a decision has been made regarding each challenge, that assessment item will no longer be open for debate or appeal.

A student who wishes to initiate a grade appeal must follow the steps outlined below. The student may proceed to the next step only if the issue is not resolved.

1. Discuss the issue with the Block Coordinator, within 2 days of the assigned grade.
2. Discuss the issue with the Block team within 3 days of the assigned grade. If the Block team is not available, the student may proceed to step 3 below.
3. Submit a formal written grade appeal to the Dean/Associate Dean who will consult with the Block team members. If the issue is not resolved, an Ad hoc committee will be appointed to hear the appeal and provide a written a recommendation to the Dean/Associate Dean.
4. The Dean will make the final decision.

A student may appeal the decision of the Dean to the Chancellor. The Dean will provide the Chancellor’s office with all written materials reviewed by the Dean. A copy of these materials will also be given to the student. The Chancellor’s decision is final.

**Last Date of Attendance**
The student’s last date of attendance is the date the final decision is made by the Dean, or if appealed by the Chancellor. The student will be notified via email and certified mail.
Responsibilities of the Class Officers

Class President

- The president is the chief executive officer of the class and takes the lead in determining non-academic outcomes.
- The president works with all class officers to ensure that the class' interest is being observed in matters of finance, publicity, and fundraising programs.
- The president acts as a liaison with the college of nursing administration and the class advisors on behalf of the class.
- The president presides over all meetings of the class and is responsible for implementing all decisions of the class.
- The president may appoint an interim class member to fill an officer vacancy that arises between class officer elections. The careful selection of class officers is vital to an energetic, active class.
- The president selects the time and place of all regular and special meetings.
- The president oversees duties and activities of all other class officers.
- The president is proactive in matters related to fund-raising development, implementation and evaluation.
- The president is responsible for implementing agendas for each class officer meeting.
- The president selects the graduation committee chairperson, and the fundraising committee chairperson. The chairs, with advice from the president, recruit the committee. The president sits on both committees. Coordinating the work of these two committees is a major responsibility of the class president.
- The president may serve in the absence of the vice-president, secretary and treasurer and fulfills duties of each office as required.

Vice President

- The vice president shall perform the duties of the president in the president’s absence.
- The vice president shall assist the president to act as a liaison between the class and class advisors.
- The vice-president may be appointed by the president to assume oversight of a committee such as graduation or fundraising.
- The vice president represents the class in the planning of orientation and welcome week-related activities and events.
- The vice-president may serve in the absence of the vice-president, secretary and treasurer and fulfills duties of each office as required.
- The vice president shall fulfill other duties as directed by the president.

Secretary

- The secretary shall prepare, and distribute the meeting agendas.
- The secretary shall record and publish meeting minutes and maintain all records (including attendance) that apply.
- The secretary shall prepare and respond to all class correspondence.
- The secretary may serve in the absence of the President, Vice-president and Treasurer and fulfills duties of each office as required.
- The secretary will fulfill other duties as directed by the president, vice-president and class advisors.
Treasurer

- The treasurer is responsible for the financial resources of the class.
- The treasurer shall prepare and maintain the class budget and accounting records.
- The treasurer shall prepare and present a financial report setting forth the amount, management, and disposition of the class funds at each class meeting. The treasurer’s report will update and communicate balances and progression toward goals.
- The treasurer shall disburse class funds to pay necessary and authorized charges in accordance with College of Nursing policy.
- The treasurer will work in close collaboration with the Fundraising chair and committee.
- The class account that the treasurer maintains will be used to pay for class expenses associated with class events, e.g., publicity, invitations, catering, etc.
- The treasurer may serve in the absence of the president, vice-president and secretary and fulfills duties of each office as required.
- The treasurer will set-up an account with the Roseman Bursar’s Office.
- The treasurer shall fulfill other duties as directed by the president.

Standing Class Committees

Fundraising Committee

- Creates, organizes and implements fundraising activities with the assistance of class officers to meet financial goals of the class.
- The chairperson of the committee shall report fundraising committee activities to the class and class officers at class meetings.

Graduation Committee

- Assists with planning, organizing and implementing the graduation event activities
- The chairperson of the committee shall report graduation event activities to the class and class officers at class meetings

Class Meetings

- Class meetings should be at least bi-monthly or more frequently as needed. The schedule of meetings will be determined by the officers of the class.
- College of Nursing committees shall have a class member from each campus who may be elected or appointed by the President. All elected or appointed student committee members must be admitted and in good academic standing to serve on Faculty council committees. Student representatives will hold voting privileges on assigned committees.
College of Nursing Committees

Advisory Resource Committee (ARC)
The purpose of the ARC is to:

- Provide counsel to the Associate Dean in matters related to policy implementation or change, external and internal relations, and College of Nursing activities not specifically delegated to other committees by existing bylaws.
- Assist in the development of long range plans for the College of Nursing.
- Review bylaws at least every two years (or as needed) and make recommendations.
- Make recommendations regarding books, handbooks, clinical tools, journals, and audiovisuals, equipment, supplies, and other resources.

Curriculum Committee
The purpose of the curriculum committee is to:

- Provide for ongoing planning, development and evaluation of the educational program(s) and curriculum.
- Make recommendations to the Faculty Counsel regarding curriculum and/or course changes.
- Provide counsel to the Dean in matters related to recommended curriculum changes.

Student Affairs
The purpose of the Student Affairs committee is to:

- Address student issues and concerns.
- Determine student eligibility and suitability for continuance in the nursing program.
- Recommend changes in admission, progression and graduation policies as needed.
- Maintain a schedule for selection of students for scholarships and awards.
- Develop and communicate procedures for selection of recipients of scholarships.
- Implement procedures to select recipients for scholarships administered by the College of Nursing, University or other organizations.
- Recommend eligible scholarship recipients to the Dean/Associate Dean.

Simulation Committee
The purpose of the simulation committee is to:

- Provide for ongoing planning, development and evaluation of simulation activities.
- Develop and recommend protocols and guidelines for simulation activities.
- Recommend simulation equipment and resources for purchase.
- Review the bylaws at least every two years and make recommendations.
Class Advisors

The class advisor(s) is a faculty member (employed full time) who is responsible for providing the students with the guidance and support necessary to maximize the opportunity of the class to successfully progress from admission to graduation. The class advisor may use multiple strategies including, but are not limited to, sharing ideas, facilitating insight, inspiring, providing different perspectives, and counseling the class. A class advisor(s) may only advise one class at a time. Faculty may volunteer for this position or be assigned by the Dean, College of Nursing.

The class advisor(s) shall perform the following functions:

- Explain roles of the class officers and conduct elections
- Provide the class a professional role model and mentor
- Act as student liaison
- Build a good rapport with students
- Assist with growth and development of professional behaviors
- Provide continuity/consistency within the class and communicate class goals and outcomes
- Counsel students experiencing difficulties with their education
- Facilitate resolution informal issues, concerns or questions that cannot be resolved by the student advisor. If the issue requires further intervention, the class advisor will refer the student to the Associate Dean.
- Provide positive support, reinforcement and encourage student achievement
- Discuss potential or significant issues and present them to the Associate Dean/Dean.
- Support, assist, and monitor fundraising activities and management of finances
- Actively participate in the planning, goal development, implementation and evaluation of progress toward the stated class goals and outcomes
- Ensure transition of class responsibilities and successful fundraising activities to the incoming class
- Support, assist, and monitor the students with organization and production of the class banquet.

Professional Organizations and Ceremonies

Professional Organizations

As part of the nursing profession, students are encouraged to become a part of a professional nursing organization. This may provide resources, connections, networking, and scholarly achievement opportunities that may be beneficial to the student nurse.

The nursing student organizations at Roseman include the Student Nurses Association (SNA) and the Roseman Honor Society of Nursing. The SNA is recognized as an important pre-professional organization that gives students an opportunity to be involved in a social, political, and regulatory network prior to graduation. The Roseman Honor Society of Nursing is a community – service organization that promotes leadership and innovation in professional nursing. It is an honor which may be conferred upon students who demonstrate excellence in their nursing program.
Pinning Ceremony
The pinning ceremony is a time-honored tradition dating from before the 1800’s. Traditionally, the pinning ceremony marks the passage from student to professional nurse. It is a special event that students share with family and friends. Students will be dressed in the specified attire, and pinned by the Dean of the College of Nursing.

Skills Laboratory Policies

Expected Behavior
- Students will be assigned specific laboratory groups.
- Attendance in scheduled labs is mandatory.
- No food, gum chewing or drinks will be allowed, except for water containers with lids.
- No cell phones or cameras, except official cameras on videotaping days.
- Come prepared to practice the assigned skill(s).
- Speak in low soft voices.
- As a group member, help your group clean up. Leave the lab area cleaner than you found it.
- Respect for fellow students and efficiency of time is expected at all times.

Professional Appearance
- Scheduled Labs and Open Lab
  - Dress for skills lab is white lab coat with ID badge.
  - Wrist watch
  - Appropriate shoes with closed toes and heels.
  - Long hair must be pulled back and put up above the collar.
  - No excessive jewelry.
- Skill Assessment Day (videotaping)
  - Dress is Roseman’s clinical uniform with ID badge.
  - Wrist watch, stethoscope, black ink pen.
  - Appropriate shoes with closed toes and heels.
  - Long hair must be pulled back and put up above the collar.
  - No tongue rings or studs, nasal or facial piercing jewelry. One pair of stud earrings is allowed. No other excessive jewelry.
  - Students must cover all visible tattoos.
- No one will be permitted to videotape if not in compliance with professional appearance.

Safety & Infection Control
- All students must wash hands per protocol prior to entering and leaving the lab.
- White lab coat or Roseman’s clinical uniform and ID badge must be worn at all times in the skills lab.
- Trash should be thrown in the designated receptacles.
- Red bags are for medical waste only.
- The needles and syringes must be disposed in the red sharps containers.
- All beds should be made appropriately after use with clean linen.
Open Lab
- After practice, all equipment and supplies must be put back as it was found.
- No equipment or supplies may be removed from the lab without permission from the lab coordinator.
- Students must sign in and out of the lab for student safety and to account for practice time.

Manikin and Simulator Care
- Do not remove or interchange manikin parts.
- Use only the appropriate solutions for procedures and for cleaning the manikins.
- No defacing of school property or manikins.
- Use of Sim-Man manikin is only allowed with faculty supervision.
- Do not remove manikins from the beds unless directed by lab coordinator.
- Treat the manikins as if they were real persons.

*For Nursing Simulation Laboratory Policy, see Appendix D

Policy & Procedures for Videotaping Laboratory Skills Assessments

Purpose
- To ensure each nursing student is informed regarding the level of competency required of each taped laboratory clinical skill assessment.
- To ensure each taped skill assessment is graded impartially and consistently for skill competency by the nursing faculty.
- To ensure that each nursing student is given adequate resources and opportunity to remediate a No Pass taped skill assessment.

Policy
Students must achieve a 90% or above in any Block that has specific clinical skills that require demonstrated competency in the laboratory setting. The student who receives a score of less than 90% will be provided an opportunity to remediate the laboratory clinical skill. The student must receive a 90% on the remediation skills assessment in order to successfully complete the Block.

Procedure
1. The Block syllabus will state the required laboratory clinical skill(s), the dates for instruction, availability of audiovisual aids, and the scheduled dates for initial taping and for remediation taping, if needed.
2. The Block/Lab coordinator will emphasize in class the importance of the laboratory clinical skills assessment.
3. The Block/Lab coordinator will explain the consequences of receiving a No Pass grade.
4. The Block/Lab coordinator will provide the student with the skill assessment checklist, which includes the criteria and point score for each step in the skill.
5. The student will have an opportunity to practice the skill during the nursing skills lab open hours. A lab coordinator will always be available during the open lab hours for instruction.
6. A nursing student peer or a designated person will videotape the skill assessment.
7. If a “patient” is required for the assessment, another nursing student will serve as the “patient”.
8. Students will work in groups of 2 or 3 as needed. The group will remain intact and support each individual member until all videotaping is complete. This includes re-taping and remediation if needed.
9. Each student’s skill assessment will be copied onto a flash drive for that student. A lab coordinator will hand the flash drive to the individual student on the video.
10. Each student is required to review the videotape and complete a self-evaluation of the videotape.
11. If the student is satisfied with the required skill assessment on the videotape, the student will sign, date, and time the self-evaluation for turning in and submit the self-evaluation to the lab coordinator.
12. If the student is not satisfied with the videotaped assessment, the student will sign, date, and time the self-evaluation for retaping and schedules with the lab coordinator a date and time to retape the skill assessment.
13. The faculty member evaluating the student’s taped skill assessment will use the clinical skill assessment checklist, which includes the criteria and point score for each step of the skill.
14. If the initial grade for the taped skill assessment is a No Pass, another nursing faculty member must independently review and grade the taped assessment. If the two faculty members agree on a No Pass grade, the student receives a No Pass grade and must remediate the skill assessment. If the two faculty members are not in agreement with the No Pass grade then a third faculty member will evaluate the taped skill assessment. If two of the three faculty members assign a No Pass grade, the student will receive a No Pass and must remediate the skill assessment.
15. If only one faculty member determines the student should receive a No Pass and the other two faculty members determine the student should receive a Pass, the student will receive a Pass for the assessment skill.
16. The student who receives a No Pass on his/her skill will be provided an opportunity to remediate.
17. If remediation is required, the student must practice in the nursing skills lab and demonstrate the clinical skill to a lab coordinator or designee prior to remediation taping.
18. Grading of remediation skill assessment will follow the guidelines outlined in steps 13-15 above.
19. If the student does not achieve a Pass grade on remediation taping, the student will not be allowed to advance in the program and will have to remediate the Block during the next remediation period.

See Appendix E for Example of the Laboratory Skills Assessment Form

Clinical Policies & Procedures

Introduction
The faculty and administration of the College of Nursing welcome you to the clinical experiential component of the curriculum. This handbook will guide you through the necessary requirements needed for your clinical experiences. The clinical component of the nursing curriculum is where you provide hands-on patient care that is both exciting and rewarding. The faculty will be available to assist you in achieving your learning outcomes. We wish you success in attaining competency in your clinical skills.
Clinical Requirements

Students must meet the following clinical requirements to protect self, assigned clients, and to adhere to agency policies. Additional requirements may be required by clinical sites or agencies. Failure to provide the required information will result in an inability to attend clinical rotations. Documentation showing completion of all clinical requirements given to the Director of Clinical Resources is a prerequisite to Block 3.0. The following is required:

Students must submit documentation of updated annual clinical requirements at the specified date and time, to attend clinical rotations.

- **A copy of current CPR card** – CPR – Provider Basic Life Support, Healthcare Provider (BLS-HCP); An American Heart Association BLS class will be provided by Roseman.
- **Medical History (Appendix F) and Physical Examination (Appendix G)** – The physical exam must be signed by a licensed health care provider, (i.e. physician, nurse practitioner, or physician assistant), and performed within 6 months prior to entry into the nursing program and annually thereafter. If a change in health status occurs after admission into the nursing program, students must notify the Dean of the College of Nursing. A change in health status is defined as, but not limited to, surgery, hospitalization, pregnancy, or contagious or severe illness.
- **Tuberculin/Mantoux Skin Test** – an initial two-step TB/Mantoux tuberculin skin test (1st skin test- read within 48-72 hrs. 2nd skin test one week after the first skin test- read within 48-72 hrs) must be performed within 6 months prior to entry into the nursing program and a PPD (one injection) annually thereafter. For persons who are positive reactors or who have been inoculated, an initial chest X-ray report is required and must be within 6 months prior to entry into the nursing program. Annually thereafter, the Tuberculosis Screening Tool must be completed and signed by a licensed healthcare provider (physician, nurse practitioner, or physician assistant). See Tuberculosis Screening Tool – Appendix H in the Student Handbook
- **Immunizations** – A copy of completed immunization record of documentation that contains the following:
  - **Hepatitis B Vaccine** – completed series of three (3) injections (2nd injection 1-2 months after 1st injection, 3rd injection 4-6 months after 1st injection) or a positive titer showing immunity; unless a waiver is signed
  - **Hepatitis A Vaccine** – 2 injections – 2nd injection 6 months after 1st injection or a positive titer showing immunity; unless a waiver is signed
  - **MMR** – (Measles, Mumps, and Rubella) 2nd injection (booster) is required – need evidence of either documented receipt of the MMR vaccine. If you have had the disease, a positive antibody titer showing immunity is required.
  - **TdaP (Tetanus/Diphtheria/Pertussis)** – Tetanus immunization must be documented within the last 10 years.
  - **Varicella (Chickenpox)** – Must have a documented immunization record (2-injections, 2nd injections 4-8 weeks after the 1st injection). If you have had the disease, a positive antibody titer showing immunity is required.
- **Seasonal Flu Vaccine**
- **Completed Health Insurance Statement** along with copy of Health Insurance Card (front & back). This is required even if you obtain the Roseman student insurance
- **Background Check** – A background check must be obtained through Precheck at [www.precheck.com](http://www.precheck.com). Fees associated with the background check are paid for by the student.
• **Requirement for Criminal Background Check** - The nursing curriculum contains a didactic and clinical component. All students must complete a criminal background check as required by the clinical agencies. Student criminal background checks are conducted via Precheck. Personnel from Human Resources at the clinical agency review the results of each student’s background check and either accept or deny the student the opportunity to enter their agency for the clinical rotation. A student who is not accepted in an agency for all clinical rotations cannot meet the curriculum requirements for graduation. Therefore, the student must withdraw from the nursing program.

• **Drug Screen** – A nine panel drug screen will be completed prior to the first clinical rotation. Information and the drug screening form will be provided by the Director of Clinical Resources at a later date. Fees associated with the drug screen are paid for by the student.

• **Signed Clinical Requirements Statement** (given to students at orientation)

• **Signed Confidentiality Statement** (given to students at orientation)

• **Certifications and Training** – Will be provided to students while enrolled in the College of Nursing.
  - CPR – Provider Basic Life Support (BLCS)
  - Compliance Education that include but is not limited to:
    - Fire, Radiation Safety
    - Latex Allergies
    - Health Insurance Portability and Accountability Act (HIPAA)
    - Infection Control/Bloodborne Pathogens
    - Goals

Students must submit updated annual medical history, physical examination, TB screen, flu immunization and bi-annual CPR on or before the due date specified by the Director of Clinical Resources. If clinical requirements are not submitted on or before the due date, the student will not be permitted to attend clinical rotations.

### Clinical Rotations

**Expected Behavior**

All client information is considered confidential. Verbal, non-verbal, or written communications must follow the HIPAA regulations (See Health Insurance Portability and Accountability Act of 1996). Identifiable information includes: names, geographic areas smaller than a state, dates, telephone numbers, addresses, hospital account numbers, or photographic images.

The following steps must be taken by students to protect the privacy of their clients, including, but not limited to:

• Any information obtained from the client’s chart or other sources must contain only the client’s initials.
• Close curtains and speak softly (as appropriate) in client rooms when discussing treatments and/or performing procedures.
• Close room doors for client privacy during nursing care, when appropriate.
• Do not discuss clients in public places such as elevators, waiting rooms, and cafeteria.
• Safeguard medical records by not leaving the records unattended in areas where the public may have access.
• Log off before leaving the computer.
• Photocopying or faxing of client records is prohibited.
• No student is allowed to deliver client care without the instructor in the same clinical setting, with the exception of preceptorship experiences.
• If a student is not prepared for clinical rotation, a remediation assignment will be required.
• The student is responsible for transportation to and from ALL required clinical sites. Faculty may not transport students to or from a clinical site.

**Clinical Attendance**
A student must notify the faculty member BEFORE the start of shift if he/she will be late or absent. The student will have an *Incomplete* for this Block until he/she makes up the shift(s) during a remediation period, if available. The clinical faculty will notify the Director of Clinical Resources when a student is late to or absent from the clinical site.

**Clinical Conferences**
Clinical conferences are an integral part of the clinical rotations. The purpose of clinical conferences is to share preparatory information and address any care issues. Students should come prepared for care delivery on that specific day and to discuss their specific clients.

**Blood Borne Pathogens and Exposures**
Incidents of exposure to pathogens may include needle stick or laceration, blood or body fluid splashes, abrasions, hangnails, or acquired dermatitis (i.e. latex allergies), human bite that breaks the skin, or other exposures.

In case of exposure, follow the facility guidelines for exposure and treatment. Next, call your instructor immediately! If you are unable to contact your instructor, please report to the Infection Control Department or Employee Health Office. If the source client is known, the agency in which the exposure occurred may request that the client or family consent for testing, according to hospital policy. Each incident will be treated on a case-by-case basis and if indicated, treatment initiated. Students are responsible for any initial treatment and any subsequent treatment. See Appendix I for Blood Borne Pathogens Incident Report form.

It is important to report all injuries, whether they are deemed blood borne, or not. See Appendix J for Incident (Occurrence) Report form for documentation of all other non-blood borne incidents.

**Medical Insurance/Medical Care**
All students are required to maintain medical insurance for the duration of the nursing program. Each student is responsible for their medical care and/or treatment in case of illness or injury while on rotation, if necessary, including transportation. In the event that a student no longer has medical insurance, he/she is ineligible to continue their experiential training.

Some sites will provide post-exposure evaluation, source patient testing, and initial prophylactic treatment as a result of exposure to blood or bodily fluids during a rotation, according to the most recent Center for Disease Control guidelines. The site will not provide HIV or Hepatitis B follow up. The exposed individual will be responsible for the follow up with his/her own physician or other medical personnel. The student shall be responsible for payment of any care/testing received as well as any additional or subsequent care.
**Professional Appearance**

Professional attire and behavior is mandatory. Students are expected to represent the College and the nursing profession with good hygiene and well-groomed appearance. Males should be clean shaven or have neatly trimmed beards or mustaches. Long hair must be pulled back or put up above the collar during clinical rotations.

Students may not wear excessive perfume and cologne. Nails should be cut and unpolished during clinical experiences. Acrylic or fake nails may not be worn during clinical rotations as they may be an endangerment to patient care.

Students may not have visible piercings except for one pair of stud earrings. No tongue rings or studs, nasal or facial piercing jewelry may be worn. Students must cover all visible tattoos. Students must have naturally occurring hair color (No blue, pink, purple, etc…colors). One single watch with a second hand and one plain wedding band are acceptable.

Other than that specified above, no additional jewelry may be worn during clinical rotation. Cell phones may only be used to communicate with clinical faculty, unless prohibited by agency policy. Cell phones must be placed on vibrate.

Students going into a clinical facility for any reason, including getting client assignments and other non-client care situations must be in professional attire with appropriate picture ID and other ID as required by agency policy and lab coat.

In any clinical facility, cut-offs, jeans, flip-flops, open toed shoes, or bare and revealing clothing will not be allowed.

**Violations of Dress Code**

Any violations of the above dress code will be subject to disciplinary action. The first offense will be a verbal warning and correction of the dress code violation. The second offense will include correction of the dress code violation and a referral to the Dean/Associate Dean of the College of Nursing or his/her designated agent.

**Clinical Uniforms**

Students are expected to wear the approved College of Nursing uniform when reporting to clinical rotations. Any student who appears at a clinical site without a clean and appropriate uniform will be sent home immediately and will not receive credit for those clinical hours.

The College of Nursing uniform consists of a “white unisex scrub top with Burgundy trim on the sleeve, Burgundy unisex pants, a white laboratory coat, and white shoes that have closed toes and heels.

**Clinical Orientation**

For each nursing Block, students may be expected to rotate to several nursing agencies or nursing units. Specific hospital requirements will be discussed during orientation. The clinical instructor will make arrangements for orientation days and for a facility tour. Parking, conference rooms, and meals will be discussed as they pertain to each facility’s protocols. Orientation to a clinical setting is a component of a full clinical day during regularly scheduled clinical blocks. If the clinical orientation does not comprise the entire shift, students will be required to remain on duty at the clinical facility for the remainder of the shift.
Clinical Assignments
Some nursing Blocks may require that students report to the assigned patient agency to obtain a patient assignment on the day before clinical rotation. Appropriate professional dress must be worn with a clean school lab coat when reporting to get the patient assignment. Information obtained from the clinical chart must not have the client’s name or personal data. All information must adhere to HIPAA regulations.

This information will be used for the client’s care plan. Students may not copy a medical record. Please be considerate with staff and their shift changes and/or physician rounds. Any chart with an order must not be removed from the nurses’ station.

If your assigned client is no longer on the clinical unit or at the facility, the student or professor will select a client of similar acuity, when possible.

Clinical Preparation
Clinical preparation is done to prepare students for total client care within the scope of their current skill level. Typically this consists of morning care, treatments, meals, physical assessment, documentation, and medication administration. The student will be expected to perform the skills appropriate to the corresponding didactic and laboratory content. Each clinical day, the student must:

- Prepare for total client care
- Bring a penlight and stethoscope
- Review assigned medical records
- Have drug cards or drug reference book
- Know the client’s medications, diet, and allergies
- Bring a nursing care plan for each assigned client
- Bring clinical skills checklists, if applicable
- Bring calculator, clipboard, and black ink pen
- Bring clinical evaluation tool for daily self-evaluation

Students should place items with patient information in a notebook to protect client information and for an organized and easy reference.

Medical Review Guide
The student may use this guide to prepare for clinical rotation for each assigned client:

- **History and Physical**
  Identify physical and emotional status upon admission to hospital and past health history
- **Physician’s Progress Notes**
  Identify changes in status and in medical treatment based on the physician’s judgment.
- **Nursing Progress Notes**
  Identify nursing roles and nursing treatments required for the client. Check for significant changes in status and nursing treatments.
• Nursing Care Plan/Clinical Pathway
  Review the nursing care plan prepared by the nurses caring for the client. Concentrate on “current” nursing diagnoses. **DO NOT COPY THE NURSING CARE PLAN FROM THE CHART.**

• Laboratory Reports
  Note “abnormal” findings on laboratory reports and correlate that information with the pathophysiology of the patient’s diagnosis. Understand lab values and their implications for patient care.

• Graphic Sheets
  On graphic sheets, note abnormalities and trends in the data. The most common data on graphic sheets are vital signs, blood glucose, and blood coagulation.

• Medications
  Look up each medication that the patient is receiving. Know the action, side effects, and rationale for each medication ordered and given. Relate the medication and its purpose to the client’s disease processes and/or treatment plan.

Pre-Conference
Pre-conference meetings are required for each clinical Block. Pre-conferences are directed towards the sharing of information. Pre-conferences will be scheduled in specific areas of each facility. Pre-conferences may not be held in open or public spaces due to the confidentiality of the patient’s information. Nursing care plans for assigned patients must be prepared before pre-conference.

Post-Conference
Clinical post-conference may be required as part of a clinical Block. Post-conference is held during the clinical shift assignment. Post conference is used to share information, to teach, or to discuss actual problems which occurred during the clinical day.

Professionalism
As a nursing student, it is important to remember that you are representing the university, as well as the nursing profession.

Any of the following behaviors are sufficient grounds for faculty to determine that the student is unsafe and may not continue in the clinical rotations. This decision is based on serious offenses and requires accurate documentation.

• Failure to meet clinical outcomes
• Actions which place patients, families, oneself, or other humans at risk for physical jeopardy
• Refusal or failure to follow College of Nursing or clinical on-site agency protocols
• Verbally or otherwise publicly revealing confidential patient information in violation of HIPAA regulations
• Illegal use of drugs or alcohol during clinical rotations or on school grounds
• Providing untrue or inaccurate information
• Absences or tardiness (see policy on absenteeism)
• Failure to safely execute critical elements of procedures or protocols in practice
Daily Clinical Routine
The student will report to his/her instructor during pre-conference fully prepared to perform patient care. Upon arrival to the unit, the student will meet with the RN assigned to his/her client and obtain a shift report. After receiving the report, the student will check the assigned charts for any other lab values, new orders, or pertinent information needed to care for that particular client on that day. The RN is ultimately responsible for the client’s care. Therefore, the student will report any care given or omitted prior to leaving the unit for breaks and at the end of the shift to the RN or his/her designee.

A typical day in a clinical rotation may include:

- assessment and vital signs as ordered with appropriate charting
- morning or afternoon care, including linen changes as needed
- daily weights as needed
- monitoring intake and output
- monitoring dietary intake/passing trays
- blood glucose monitoring as ordered
- specimen collection
- medication administration and documentation
- charting and documentation
- opportunities for new procedures
- admissions, discharges, and transfers
- accompanying client to tests or procedures
- a 30 minute meal break (arranged with your nurse)
- monitoring client safety, including following hospital “codes”
- monitoring client activity as ordered
- monitoring new physician’s orders

(Students nurses may not take verbal or written orders)

Medication Administration
The clinical instructor will arrange for the student to administer medications to assigned client(s) as indicated by the current Block skills list. The focus of the medication experience will become more complex as the student progresses in the curriculum.

A medication proficiency assessment will be administered at varying times throughout the curriculum during laboratory sessions. To prepare for medication administration, the student must:

- Compare physician’s order to the medication administration record (MAR)
- Note medication and food allergies
- Check patient’s armband for correct ID (NO medication may be administered without patient ID)
- Administer medications according to the 5 rights
- Review previous 24 hour medications and prns given.
- Know actions of medications, side effects, and normal dosages
- Determine the relationship of each medication to the client’s disease processes
- Be alert for new medication orders and discontinued medications
- Check compatibility of medications, and medications with food
• Chart medications only after giving them
• Check policies (as applicable) on how to procure a medication that is not in the client’s medication box
• Administer medications under the supervision of faculty or the preceptor
• Administer medications within the time frame, designated by facility policy
• Administer medications with consideration of appropriate infection control techniques

**Medication Administration Limits**
• Students **MAY NOT** administer blood products, IV push medication boluses, or IV narcotics
• Students may not administer drugs during a “Code”
• Students may not sign out Narcotics
• Administer medications to a patient without a patient ID
• Access a port-a-cath or PICC line
• Students may not administer medications in the child life room
• Students may not perform testing on a Swan-Ganz catheter

**Clinical Journal Guidelines**
Clinical Journaling is to be completed by the student for the assigned Block. The clinical journal is used for the student to develop clinical insight into his/her behaviors, emotions and professional growth. The faculty member will periodically collect the journals for review.

• Journals are to be written legibly in ink or submitted electronically.
• A small spiral bound notebook is necessary.
• Please date and time each entry.
• Use one page for each entry.

Clinical Preparation/Reflection Question:
• What is the purpose of care for my client?
• What am I doing and why am I doing this?
• Did my interventions work?
• Did I accomplish my goals for the day?
• How did my client and or family feel about my care delivery?
• What could I have done differently?

Use the journal to explore the above questions. After clinical is completed, explore other aspects of nursing you encountered. Document this in your journal.

• What other interventions did you observe?
• How did the care delivery correlate to your current or past theory?
• Did I do a procedure today that I had not previously prepared for?
• Did I find the staff helpful and considerate to my needs?
• Did I, my peers, and the staff respect client confidentiality?
• Did I follow standard precautions?
• Did I follow the principles of the procedures completed as taught?
• Was my care delivery on time and organized?

This form is to be completed by the Block Coordinator or designee on each student who meets any of the concern criteria listed below. Circle all areas that apply.

Statement of Concern:
1. No Pass assessment
2. Failed assessment remediation or block remediation
3. Excessive days absent or tardy
   a) Excused
   b) Unexcused
4. Academic and/or Professional Misconduct: Cheating, plagiarism, fraud, misrepresentation, unethical behavior, improper behavior, unprofessional conduct, and false information.
5. Failure to submit required assignments completely and on time
6. Lack of group participation
7. Other

Outcome Statement:
1. Pass assessment remediation
2. a. Pass block remediation
   b. Consult with appropriate persons regarding the process to:
      1. Retake the block when next offered
      2. Exit the Roseman University of Health Sciences CON program
3. Be on time for class or contact block coordinator or lecturing faculty to request excused absence or tardiness. Be aware of consequences if corrective action not taken.
4. Refrain from unacceptable behavior and be aware of consequences if behavior does not change
5. Submit all required assignments completely, satisfactorily, and on time. Be aware of consequences as described in the syllabus if this is not done
6. Actively participate in all group assignments. Be aware of consequences if group participation does not improve
7. Other

Revised 4/3/2013 LC – Academic Intervention Action Plan

Page 1
Action Plan:

Concern #1:
1. Review failed assessment for areas of weakness
2. Review all assignments, lectures, and handouts
3. Clarify concepts with appropriate faculty
4. Assess study habits for ways to improve
5. Review test taking strategies
6. Complete ATI Nurse Logic tutorials
7. Review ATI practice assessments
8. Other

Concern #2:
1. As stated in outcome statement, above.

Concern #3:
1. Discuss with appropriate faculty reasons for frequent absences and/or tardiness, whether excused or unexcused, to try to resolve problem.
2. As stated in the block syllabus, be aware that any absence from nursing lab must be made up during the student’s free time.

Concern #4:
1. Meet with appropriate faculty and campus dean or associate dean to determine causes for unacceptable behavior and possible solutions to problems.
2. Be aware that improper behavior may result in dismissal from the nursing program (see the current Student Handbook on Academic and/or Professional Misconduct).

Concern #5:
1. Meet with appropriate faculty to determine causes for failure to submit required assignments.
2. Be aware that satisfactory completion of all individual and group assignments and submission on the due date is a course requirement as stated in the block syllabus. Failure to meet this requirement will result in a No Pass grade for the block.

Concern #6:
1. Meet with all group members with or without group faculty advisor to determine course of action.
2. Be aware that a student who does not participate in group assignments/assessments will not be awarded group assessment points.

Concern # 7 Other

Block coordinator will retain this form until the student graduates.
Appendix B – Withdrawal & Return Policy & Processes

WITHDRAWAL AND RETURN POLICY

When a student receives a no-pass in a foundation Block (2, 3, 3.1, and 4.0), he/she is offered an admission into the next class if space is available. The student is not required to pay an application fee or submit a seating deposit; however, the student must meet all financial requirements of the university.

WITHDRAWAL PROCESS

1. Email Notification
   a. Upon knowledge of a student withdrawal, within 24 hours, the Associate Dean shall send an email informing the appropriate units of the student’s withdrawal.
      i. The email will include the following information:
         • Student Name
         • Class of _________
         • Date of Withdrawal
         • Block # from which the student is withdrawing
      ii. The email will be sent to the following units:
         • College of Nursing Dean
         • College of Nursing Director of Clinical Resources
         • Recruitment, Admissions & Enrollment Coordinator
         • Bursar
         • Financial Aid
         • Roseman helpdesk
         • Library
         • Registrar

2. College of Nursing Withdrawal Form
   a. When a student withdraws from the program, he/she must complete a College of Nursing Withdrawal form, which includes:
      • The last day of attendance, official date of withdrawal, the Block in which he/she was withdrawn.
      • The Block and date in which he/she may re-enter.
      • Any specified conditions.
   b. Once this form is completed, it is signed by the student and submitted to the Associate Dean.
   c. The Associate Dean will discuss the details of the withdrawal and the specified conditions in which the student may re-enter.
   d. The student will obtain signatures from the financial aid, registrar, library, technology services and bursar units.
   e. Once all signatures are obtained, the form is submitted to the Dean for signatures.
   f. Copies will be emailed to all signing units.
   g. The original withdrawal form is turned into the Recruitment, Admissions and Enrollment Coordinator (RAEC) and filed in the student’s admissions file.
   h. Upon receipt of the original withdrawal form, the RAEC will indicate the withdrawal on the student database (nursing_db).
   i. The Registrar’s office will withdraw the student from PowerCAMPUS and send an email to all applicable units that the student has been officially withdrawn from the system.
READMISSION PROCESS
1. Readmission Application
   a. Approximately 60-90 days prior to student’s expected return, the student must
      contact the College of Nursing Admissions Office to request a readmission
      application form.
   b. The Recruitment, Admissions and Enrollment Coordinator (RAEC) will send the
      student the necessary readmission application and admission forms.
   c. Upon receipt of a completed readmission form, the RAEC will contact the
      Bursar’s office to ensure that the student is able to return to class based on the
      student’s financial status.
   d. Upon clearance from the Bursar, the student’s readmission form(s) are forwarded
      to the Dean for review and approval.
   e. Upon approval from the Dean, the RAEC will distribute the readmission
      application form to the student, Registrar, Bursar, and Financial Aid units.
2. Readmission Notification
   a. Approximately 2-weeks prior to the start of the Block in which the student is
      expected to return, the RAEC will send a confirmation email to the student as a
      reminder of his/her start date and any other information that the student may
      need.
   b. On the first day of the student’s return, the Administrative Assistant to the Dean
      will send an email to the Registrar’s office to confirm that the student has
      returned.

RE-ATTENDING PROCESS
1. Re-attending Form
   a. If a student wishes to re-attend a Block(s) that he/she has previously passed, he/she
      must inform the Associate Dean and/or RAEC and complete the Re-attend Form.
   b. The completed form is forwarded to the Dean for review and approval.
   c. Upon approval from the Dean, the form is forwarded to the Registrar and Bursar for
      signing.
   d. If applicable, the Bursar will collect any associated fees.
   e. The Bursar will notify the student, Registrar and the RAEC if the student has been or
      has not been authorized to audit a Block(s).

Appendix D – Nursing Simulation Laboratory Policy and Confidentiality Agreement

ROSEMAN UNIVERSITY – COLLEGE OF NURSING

Nursing Simulation Laboratory Policy and Confidentiality Agreement

Human Patient Simulators (HPS) are computer-assisted manikins capable of displaying a wide range of physiological and pathophysiological conditions that can change in response to the learner’s interventions. Simulation sessions consist of structured patient scenarios lasting approximately 15-30 minutes, allowing the student to practice direct interactions and clinical interventions. Scenarios are videotaped and observed by other students. At the completion of each scenario, the students and faculty engage in a debriefing session to allow all participants to reflect upon the events in the scenario. Digital recordings of simulation sessions will be removed from the computer server at the completion of the debriefing period.

The simulation laboratory is created to be a safe place for students and faculty to explore the complex components of realistic patient care. As such, students will:

- Engage and participate in simulation scenarios with professionalism and respect
- Treat the manikins with the same respect as live patient
- Refrain from use of demeaning, mocking, negative verbal, written or body language about any scenario participant’s actions, thoughts or behaviors before, during or after the scenario
- Observe strict confidentiality regarding the scenario, participant actions, and debriefing discussions
- Uphold all requirements of the Health Insurance Portability and Accountability Act (HIPAA) regarding confidentiality
- Use the Sim-Man, Sim-Mom and Sim-Baby manikins only with faculty supervision
- Turn off all electronics including cell phones, PDA’s, cameras, camera phones, and video recorders during simulations unless approved by faculty
- Sign a confidentiality agreement prior to participating in the simulation experience

NO food or drink is allowed in the actual simulation room at any time, this includes water in closed containers. NO ink pens, felt-tipped markers, iodine, betadine, or lubricant jelly is to be used on the manikins. Proper hand hygiene is to be performed by the student using the manikins. Non-colored, latex-free gloves shall be worn by students during any contact with the manikins. Naturally-occurring skin oils and colored gloves can cause permanent discoloration of the manikin skins.
Confidentiality Agreement

As a user of the Roseman University of Health Sciences Nursing Simulation Laboratory, I understand the significance of confidentiality with regards to all aspects concerning simulation experiences. I will uphold the requirements of the Health Insurance Portability and Accountability Act (HIPAA) regarding confidentiality. I agree to report any violations of confidentiality that I become aware of to the simulation faculty. I am aware and understand sharing scenario experiences with fellow students outside of the simulation laboratory will be considered academic misconduct and may result in disciplinary action.

I agree to adhere to the following guidelines:

- All patient information whether electronic, written, overheard or observed is confidential and any inappropriate viewing, discussion or disclosure of this information is a violation of Roseman University of Health Sciences Nursing Simulation Laboratory policy.
- Maintain strict confidentiality regarding my performance as well as the performance of others, whether witnessed in real time or on media. This includes events, actions and statements seen or heard during the scenario and as part of the debriefing discussions.
- Viewing, using, disclosing or copying information related to simulation scenarios will only be allowed as it relates to the performance of educational duties.
- All simulation scenarios, regardless of the outcome, will be treated in a professional manner. Simulation manikins are to be treated with the same respect as if they were live patients.
- Refrain from use of demeaning, mocking, negative verbal, written or body language about any scenario participant’s action or behaviors before, during or after the scenario.
- Support and guide participants in a positive, professional manner and fully participate during the debriefing session.

**General Observations**  
**   **  

**SAFETY**
1. Return bed to lowest height  
2. Verify that brakes are locked  
3. Make sure that appropriate rails are up  
4. Ensure call bell is available  
5. Proper body mechanics  

**INFECTION CONTROL**
1. Hand hygiene at appropriate times  
2. Maintain clean/dirty areas  

**GENERAL COMMUNICATION**
1. Thank the client for his/her cooperation  
2. Verbalize findings  
3. Appropriate instructions  

---

If video time is greater than 25 minutes, use the following calculation:

\[
\frac{\text{Student Video Time} - 25}{\text{Time Frame} + 5 \text{ minutes}} \times 2 = \text{points deducted from total score}
\]

Student points:  
Total possible points: 92  
Percent Correct:  

I have reviewed and evaluated my videotape.

Additional Comments: ____________________________________________________________

I certify that I have on this date examined this patient and that, on the basis of the examination requested by this patient and the patient’s medical history as furnished to me, I have found no reason which would make it medically inadvisable for this patient to participate in supervised clinical rotations in various settings.

Examiner’s Name and Address (stamp or print)
If the Physician’s Assistant or Nurse Practitioner performed the exam, please include name and address of collaborating physician or group below.

Examiner’s Signature  Date

Please return signed form to:
Roseman University of Health Sciences
College of Nursing Director of Clinical Resources
11 Sunset Way
Henderson, NV 89014

NOTE: Medical History must be completed prior to the Physical Examination
Appendix H – Tuberculosis Screening

Annual Tuberculosis Screening Tool
(for positive reactors only)

Name: ____________________________________________________

Gender _____  Race _____  Birthday ______

Section A (to be completed by the person with a history of a positive tuberculin screening test.
