PINNING CEREMONY

THE PROFESSION OF NURSING

The profession of nursing is recognized as both an art and a science. The utilization of research-based knowledge, professional judgment and critical thinking skills are the science of nursing. The art of nursing is reflected in the therapeutic nurse-client relationship that incorporates interpersonal components, such as caring and compassion. Together, the art and science of nursing empower the professional nurse to provide high quality holistic nursing care. Roseman University of Health Sciences (Roseman) College of Nursing is dedicated to preparing students to become proficient professionals who will provide the utmost service to the community by maintaining their integrity as professionals through principled actions and ethical decision making. This is accomplished by presenting an innovative curriculum that provides students with the knowledge needed to practice their profession and to become life-long learners.

HISTORY OF THE NURSING PIN

In the 11th century, various military and religious orders of hospitallers who cared for the sick and wounded Crusaders were honored with badges. Later in the 1860s, Florence Nightingale devoted herself to caring for casualties of the Crimean War. In recognition of her service, she was awarded The Cross of St. George. Florence then extended the honor by presenting a medal of excellence to the most deserving student graduates at The Nightingale School of Nursing – London. Today, nursing schools around the world give a Nursing Pin to represent a medal of excellence to their student nurses upon graduation. Each school of nursing pin has its own distinct design which represents the symbols, colors and phrases that illustrate the mission and philosophy of the school.

ROSEMAN NURSING PIN

The Roseman Nursing Pin is designed in the University colors of burgundy and silver. The shape of the pin symbolizes the unique “Block” curriculum of the Roseman program. Moreover, the four sides of the pin represent the College of Nursing Core Values - Service, Integrity, Innovation and Knowledge. The Lamp of Knowledge on the lower half of the pin signifies the nurse’s science-based knowledge and commitment to life-long learning, which are the foundation of professional nursing practice. The lamp’s bright flame is reserved for those who, like Florence Nightingale, strive to light the way for others through knowledge and compassion. A glorious sunrise against the Intermountain West is displayed on the upper half of the pin. This image serves to remind Roseman graduates that although they started their nursing career in the Intermountain West, with every new day, they have limitless opportunities to better the life of others all over the world.
